Pay Day In the Trenches.

The pay department of the British army now employs nearly 700 officers and about 7,000 clerks. This is nearly ten times as many people as were required for the work in times of peace. The housing of the constantly growing staff of the paymaster's office was one of the first difficulties, and the London main office has moved twice since the war begun. Lately it has taken to adding private houses to its office area. Much of the time since the first of August the whole army pay organization has worked day and night.

The soldier receives his pay, if he wishes it, not only at the front, but when necessary." And that I believed even in the trenches. The cash, in French currency notes, is issued by his company officer in the field, and is accounted for on the so-called "ac-quaintance rolls." Every soldier carries his paybook right through the war. As far as possible he is paid weekly. Men in the advanced trenches draw their pay almost as if they were in the barracks at home. 1.3.44

A Hearty Meal.

"When I was a little girl," says a friend of the Companion, "I had the honor of being introduced to Mark Twain. It was just before Thanksgiving, and I very proudly told him that I was going to spend the holiday with my aunt in New York.

"'Really,' he drawled, with the most flattering show of interest. 'Well, 1 hope you will feel, after dinner, just as I did when I went there to a banquet a few months ago." "Of course I instantly demanded

to know, 'How was that?' 'Very thankful,' answered Mr. Clemens, with preternatural solemnity. 'Very, very thankful because ! still had one article of apparel that

wasn't too tight a fit for comfort.' "'Oh, I know,' I guessed eagerly; 'your shoes!' But the humorist shook his head.

"No, no,' he corrected with gentle sadness; 'my umbrella!' "-Youth's Companion.

Season of Aspiration.

O springtime, the season of aspiration! with what delight in life thou fillest the heart! On one side, the spiritual world is attracting us, and we feel assured that only in its closest bond of union can our true happiness be found. On the other hand, Nature with her thousandfold witcheries calls back our hearts and our senses to her own eternal life. It is hard that neither the internal nor the external can fully satisfy our desires, and that the souls in which the two are united are ao few. A life purely spiritual cannot satisfy us; there is something in us that has a longing for reality As the thoughts of the artist can find no rest until he has embodied them in an external representation, so the object of all our aspiration is to find in the perfect material, the counterpart and reflection of the perfect spiritual.

His "Daughter-In-Law."

MUSIC PAINFUL TO BISMARCK

"Melodies Cling to Me," Said the Chancellor, "and I Find It Difficult to Release Myself."

Talking of the arts, Bismarck said: "Of music I am very fond, but now I have to abstain from hearing it, besause tears come only too readily into my eyes. My heart is stronger than my head. Indeed, what self-control have has been bought by experience." Tany instances occurred during our conversations which gave the truth to this assertion.

The extreme mobility of his countenance and the various shades of expression which passed over it told of a sensitive, emotional temperament, "But I have a fire within me still which burns at times with fury." Upon that I asked: "Are you in reality the Iron Chancellor?" "No," he said, "not naturally; the fron I have created to use to be true.

I asked him if he knew Wagner personally. "Yes," he answered; "but it was quite impossible for me to care for him or to encourage his society. I had not time to submit to his insatiable vanity. Before breakfast, at breakfast, before and after dinner, Wagner demanded sympathy and admiration. His egotism was wearisome and intolerable, and his domand for a listener was so incessant that I was obliged to avoid his company. I was too busy with my affairs to be able to give him all or even a portion of the demands he would have claimed upon my time. But I admire his music greatly, though I have been compelled to give up going to the opera, because the beautiful and touching melodies I cannot get out of my head; they cling to me, and find it difficult to release myself from them, and now it tires me to be so much moved."-From "Conversations With Prince Bismarck," by W. B. lichmond, the English Painter, in the North American Review.

Splendid Memory.

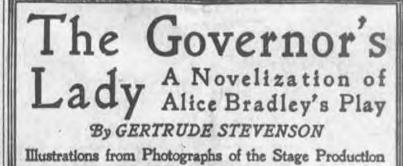

Recently Philip O'Day, a coal dealer of Brooklyn, died and it was found that for nearly twenty years he had kept complete tally of his business in his head. He had not the slightest knowledge of arithmetic, as taught, but according to his own methods was able to remember who owed him and whom he owed, down to a cent.

His sons associated with him in the business kept a private account book. but they never dared let their father know about it. Just before his death the coal merchant told them the names of all debtors and the amounts due. Even in his dying moments he spoke with scorn of the need his sons found for using pencil and paper to take down what he told them. After their father had passed away the sons found his memory was even better than their account book, for they had neglected putting down certain sums the old merchant had reported to them.

Coroner's Ancient Nuisances.

Somebody invented coroners three centuries before Columbus discovered America. It was a job of much distinction and there were no fees attached, says the Philadelphia Ledger. But even when Oliver Cromwell was

him. I've got two lawyers. Tell him to have his lawyer talk to mine. My heart's so hard against him-I couldn't listen to the sound of my own voice," and she sank weakly into a chair as Hayes continued to converse with "No, she says not," he was Slade. saying. "No, I am not out here winding her up or advising her," and he

"What'd he say?" Mary was wring-

cut off," answered Hayes, as he nonchalantly lighted a cigarette. He paced up and down the room for a moment and then turned on her:

every court in the country. The scoun-

she finally managed to get the word

"Auntiel" It was not necessary for Hayes to feign surprise, for, although he knew the situation, he had been confident that such a thought had never entered Mary Slade's pure-minded thoughts,

The pent-up emotion of days broke. and Mary sank sobbing into a chair, burying her face in her hands. With the expression of the thought that heretofore she had never admitted even to herself, her self-control vanished and she cried out desperately: "Well, what do you think he wanted

that divorce for so suddenly?" "People usually do get divorced when they can't get on, don't they?" Hayes was willing to lie to shield her from the knowledge that he knew would be the bitterest part of all the vormwood that she had already tasted. "Sometimes I wonder," Mary continued, reflectively, "sometimes I'm almost positive that-No! Slade isn't that sort of a man. My husband isn't that sort of a man, Rob." "No, of course he isn't."

"You didn't know what I was going to say," she objected.

"Yes, I did. About women." "He never noticed any other woman," she told herself positively.

"No," Hayes agreed, "You haven't heard of anything like

that, have you?" she questioned. "No, no, I haven't." Hayes was finding the cross-examination extremely trying, convinced as he was that Mary must be saved from the knowledge of Katherine at any cost. "If there were anything, you'd hear it. Don't worry." "Robert," and she looked at him in-tently. "Would you tell me if--"

"No. I would not!" asserted Hayes vigorously. "Haven't you got enough trouble now?"

"But, Robert, you are my friand, aren't you? You ought to-

He was saved from any further questions along that unwelcome line by the sound of the doorbell and a moment later Merritt opened the door without ceremony.

"Well!" Hayes was far from cordial,

"I beg your pardon for entering so abruptly." Merritt was the same old talkative, suave, good-fellow, I'm-yourfriend-Merritt, "but I was bound to see Mrs. Slade. I'm for the Slade familybut I'm for all the Slade family, so 1 hope you won't make a stranger of

Mary was politely indifferent and Hayes, with back turned, was tapping his foot uneasily on the floor. Altogether not the warmest welcome a man ever received.

"This man is likely to publish anything you may say, auntie," Hayes warned over his shoulder.

"Oh, come now, Hayes," objected Merritt, "I'm here on a perfectly friendly visit. I well remember this little place," and he looked about, stopped here some years ago and Mr. Slade brought us a drink of water. Slade was in his shirtsleeves, I reing her hands in her uncontrollable ex-citement. Big man, Slade!" and he eyed Mrs. Slade inquiringly. "Big man!" he exclaimed again as Mary remained silent, her features giving no clew to her feelings.

"Well, my wife has gone off to Europe on a long-extended tour." Merritt was determined to make conversation if he had to do it alone. "I'm quite alone. In fact, we're in the same | police protection. boat-alone."

"I'm not," Hayes burst forth. Thank God, I've got my troubles, but

HE WAS SWEET-LOOKING COP

miration for General Wood, Chief

Gen. Leonard Wood, chief of staff of the United States army, has had many expressions of admiration voiced as to his personal appearance. It remained, however, for a humble maid servant to apotheosize his looks.

A young girl-who, knowing the general, worships him as her heroalways keeps a photograph of him in uniform on her dressing table. One day, entering her bedroom suddenly, she chanced upon her newly acquired maid, who stood agape, with gleaming eyes, holding the photograph in her hand.

Startled into speech, the servant nked:

"What's he, miss?"

"He's an officer, Norah." The young nistress deemed that answer suffident.

"Gee, miss," was the breathless comnent as the maid put down the ploture lingeringly; "but ain't he the sweet-lookin' cop!"-Neale's Monthly.

SHE ATTRACTED THE COPPERS.

Mrs. Oldwed-Why did you pick out such a pretty cook?

Mrs. Newwed-My husband is away a great deal, and I wanted to have

Convincing Proof.

Daniel Elade, suddanly advances from a penniless miner to a millionaira. He is imbilious to become governor of the itate. His simple, home-loving wife fails orise to the new conditions. Elade meets katherine, daughter of Benator Strick-and, and sees in her all that Mary is not. He separates from his wife and takes rooms at his club. Editor Merritt, who has been attacking Slade, is won over to the latter's support because he cannot etherwise supply the money demanded for a European trip for Mrs. Merritt. Kath-srine agrees to marry Elade when he is free. Bob Hayes, in love with Katherine, has a stormy session with her over her affair with Elade, Mary, analous to make it up with Elade, appears at Strickland's pouse during a political conference. Ilade informs her that separation is final. Mary declares that she will fight a di-vorce. She returns to the little cottage where they started out in married life.

CHAPTER IX-Continued.

"You're sure of it? Was he very Conscious of the song, Mary remem bered the lamb stew that she had left tooking on the kitchen fire. Dan had

always loved lamb stew; that is, her amb stew. She remembered how "Yes, I got two. I got a whole heartily he slways ate of it, how he

to be sure?"

Hayes laughed.

Mary found her thoughts growing very tender when she suddenly remembered that tonight she must sit down alone at the table, that instead

banged up the receiver.

"Oh, he just called me a skunk and

drel!" "I don't like to hear you talk like that about him, Rob," Mary remon-

"God! I'd like to haul him through

"You'd better answer it, Rob." "It's Slade," Bob declared, holding

me.' "No, siree!" Mary was vehement. "Cut him off! I ain't going to talk to

-Von Schelling.

My husband and I had just been married and my small brother-in-law overheard his mother refer to me as "my daughter-in-law." A short time after that the little fellow visited me in my new home, and upon sending him to the store the groceryman, seeing he was a stranger, said: "Well, little boy, I have never seen you before. Do you live in this neighborhood?" "No, sir," said the child, "but my daughter-in-law lives across the street and I am visiting her."

Mushrooms Somewhat Neglected.

The artificial production of mush rooms is carried on in Europe to an extent never attempted here, though the growing of them in America is rapidly increasing, mushroom "barns" being available in cellars, caves, stables, fields, outhouses of all kinds. It is one of the many attractive spec tacles of the great markets of Paris to see high pyramids of mushrooms, fresh from the "farms," white as snow and of whose luscious edible qualities there can be no doubt.

That Boy Again.

The boy stood on the burning deck whence all but he had fied. The smudge pot filled the air with smoke, the red fire glowed real red. The thunder roared, the lightnings flashed, and still he would not go. "For if I did I'd spoil," quoth he, "the motionpicture show." The camera clicked, the film rolled on, the boy was burning money. That picture made him a repute, and bought his bread and honey.

Wouldn't Be Snubbed.

A man who visits my home quite requently was wont to tease my twoyear old niece. One morning while the was breakfasting at my home he same in and paid no attention to her. She felt rather slighted, and after watching him for a few moments remarked: "I'se heah."-Exchange.

Unquestioned Antiquity.

We never did like the mother-in-law joke, but have learned to respect it because of its great age. The joke was a distinguished contemporary of Methusaleh, and as we all know, has survived that ancient citizen by something more than two thousand years .--New Orleans States.

moroners and call them grafters, or whatever it was they called folks in that day who got something for nothing. And Blackstone, whose name is often used as a synonym for common law, declared that coroners were not only an unnecessary nuisance but that they often stood in the way of justice. Several states are now trying to abolish coroners, but progress is slow. If it were as easy to eradicate an old office as a new one, I fear no coroner would survive the slaughter. When I asked an eminent judge what coroners are good for, his reply was: "To draw salaries."

Soldiers of the King.

The change which education has made in the British army in the last quarter of a century comes out again in the craving of the King's Liverpool regiment for magazines to read -"always acceptable in the trenches and defenses." The illiterate private of Mr. Kipling's early stories has vanished, leaving in his place a man as physically capable and as high-spirited and also of quicker and better-furnished intelligence, who has triumphantly shown himself to be able to make a success of the new military training, with its wisely bold policy if evoking the soldier's capacity for naking the best use of himself on he battlefield. The needs are not hose of the old Mulvaneys and Leawds-if these ever existed-but those of sensitive, highly-civilized men .--Manchester Guardian.

Effective Water Sterilizers.

Two ozone water-sterilizing plants at Nice supply 40 and 80 gallons of absolutely germ-free water per second.

The ozone generator is of copper plates, with glass sheets between, and objected.

like to see them-some of 'em.' "I never noticed before how many guestions old neighbors could ask Rob," Mary sighed, as she recounted the curious visits of her old friends, who had inquired anxiously and repeatedly for Mr. Slade, how he was getting on, and when he would be down, and a dozen other questions in the phraseology of people who, as old friends, take the liberty of coming as near as possible to demanding that you unburden your soul to them on he spot. "You'll kind of have to odge 'em, Bob. I don't know when 've lied so. What do you think of

man who forces a woman to lie?" "Well," Hayes hated the old subject,

hated the thought of Mary dwelling continually on her unhappiness. "Didn't they know about Slade?" and he began to toy with the spools of thread that Mary had been using for the inevitable sewing that had so annoyed her husband.

"Either they don't know or they want to find out more than they already know," Mary answered, wearly. "So I sit here lying and lying." "You intend to stick it out and stay

here?" "Yes," Mary answered with a quiet determination.

"Well, he can't call this desertion," Hayes went on. "You own this house together. It's your home as well as his."

"Yes," agreed Mary, "but it's awful fighting my husband. What's the matfer with you, Bob? You used to tell me a lot about Miss Strickland, and lately you-have you had any trouble?" she asked, kindly, forgetting her own sorrow at the thought of the possible anhappiness of this young man whom she loved as tenderly as if he had been her own son.

"Don't let us talk about her," Bob

"All right, Robert." Mary attempted posed by a silent electric discharge of to be cheery as she saw how abstract-70,000 volts. The nitrogenous products ad and dejected Bob was. "Dinner being removed by a filter, the ozone is will be ready in a minute and you "I won't give in to him!" she de-

"Yes," came the soft answer. (TO BE CONTINUED.)

tender blue of the sky, and still the brother watched, quiet again and composed; he had given only that one sign to show that he loved her whose ashes now lay among the charred and smouldering logs. Or rather it was only for the moment that, thinking of days of childhood and dawns by the riverside, he forgot that it was not she who had been consumed in the fiames of the pyre. Then he remembered again, and looking up from the pyre to the dazzling river, he saw there on our boat his friend, the Brahman, and stailed to him .- From "The Heart of India," by C. F. Benson, in the Century.

Function of Judges, Judges ought to remember that their office is to interpret law, and not to

"How can you tell whether a man has been married only a short while, or long enough to get used to it?"

"You can tell that very easily by observing how he says, 'I have a wife to provide for.'"

"Yea?" "If he says it proudly, he hasn't been married long, but if he says it with an air of deep dejection you may be sure that the iron has entered his

Doubtful,

soul."

"How would you like to be a wounded French soldier from the trenches, convalescing in a luxurious Paris hoel, which had been converted into a military hospital, and with a beautiful nurse to wait on you who was probably a nobleman's daughter?"

"No doubt that would be fine, but I don't believe I would enjoy heaven much if I had to go through hell to get there."

Getting Serious.

Mr. Newpop (2 a. m. at the phone) -Hello, doctor! Can you come down and see the baby right away?

Doctor-What seems to be the troubla?

Mr. Newpop-I-I'm not quite sure but I think he has incomnia.

Deserved Punishment.

"Did you ever have a desire to go on the stage?" asked the man who had a minor part in the show.

"Oh, yes," replied his neighbor. 'The first time I ever saw you try to act I did."

Used to Growling.

Mrs. Myles-What has become of that nurse you used to have for your pet dog?

Mrs. Styles-Oh, she's married. "She ought to get along all right. She's used to growling."

Seemed So.

Bacon-I see the human family is subject to about twelve hundred different kinds of disease and allments. Egbert-Well that can't he right, for my wife has over twelve hundred allments alone.

A Scarecrow,

Bill-I see a woman who conducts farm near Los Angeles wears male clothing when at work.

Jill-That possibly saves the trouble of putting up a scarecrow.

Relief From Ants

How To Cope Effectively With This Intolerable Nuisance

If you are one of the thousands of women whose homes are over-run fond; but just at present she is con with ants, you will be interested to vinced that he is as catty as any wom know that an absolute riddance for this plague has been discovered. After long experimenting, a Los Angeles baker, whose shop was infested with ants, prepared a paste which not only drove every ant out of his place in one day, but prevented their ever getting a foothold again.

So great a sensation was caused by this discovery that he was obliged to put up the paste for general use-and a large factory is now required to manufacture the remedy in the tremendous quantities necessary to keep pace with the demand.

logg's Ant Paste and can be obtained letter, offering me all manner of feliciat all modern druggists. Try it today tations and wishes for a bright and and you will always keep it in the house .-- (Adv.)

Jacobin's Pottage.

Chop the meat of cold turkey fine; add two ounces of grated parmesan cheese, salt, pepper and nutmeg. Make four or five slices of toast, put them in the bottom of a dish and add one cup of stock, then the chopped meat and a sprinkling of breadcrumbs. Bake one hour, add lemon juice on top.

Encouraging Character.

One thing is indisputable; the chron ic mood of looking longingly at what we have not, or thankfully at what we have, realizes two very different types | I couldn't complain of the letter uncle of character. And we certainly can encourage the one or the other .-- Lucy C. Smith.

HOW SHE ENDED TEN YEARS OF SKIN-TORTURE

Oct. 28, 1914 .-- "I had eczema on my face for ten years. Little red rim-ples formed in a small spot on my chin and then spread all over my face. They itched and burned me awfully. I tried almost every remedy and treatment that could be used for this trouble, but nothing did me any good. I used resinol ointment and resinol soap, and was relieved in a day or two. In one month I was cured. This was six months ago, and the trouble has never returned."---(Signed) Mrs. C. C. Roberts, Weatherford, Okla, Every druggist sells resinol ointment and resinol soap, and doctors have prescribed the resinol treatment for more than twenty years .- Adv.

One Thing He Had Observed.

Mrs. Toggerblossom-"Vain man! Did you never observe that designers take a woman's head to adorn many of your coins?" Mr. Toggerblossom-"No, but I have observed that designers take many of my coins to adorn a woman's head."-National Monthly.

Not at All Times.

Husband-"There's one thing I can say for myself, anyway. I have risen by my own efforts." "Never in the morning, John. I notice that it takes two alarm clocks and all the members of the household to get you up then."

FELT UNCLE WAS HORRIE Only Her Third Engagement in a Fev Months and His Congratulations Hint at Fickleness.

A certain charming young thing o this town has an uncle of whom she has always been, and still is, very an she's ever known.

She tells the story herself: "Listen. You know I have alway: had an excessive affection for Uncl-Dick, and have without exception tole him everything-absolutely every thing.

"Now, the fact that I have had so much trouble with-well, you know with whom-has never been a joke to me. Last year, when that affair with Tom was on, I wrote, of course, to Uncle Dick about it-Uncle was then in the West. Now, since he always This little remedy is known as Kel- liked Tom, he wrote me a beautiful prosperous future. I treasured that letter from Uncle Dick.

"Now, it isn't necessary for me to refer to my disappointment in Tomhis behavior justified any action on my part. I know that people say I threw him over and all that sort of thing but, honestly, there was only one thing to do, and of course I did it.

"Well, I suppose it did seem a little startling to Uncle Dick, when a little over two months after the writing of his first letter, he received another from me, telling him of my engage ment to Harry. But uncle was terribly nice about it. He approved of my course in the matter, even though he did prefer Tom to anybody else. And sent me in reply to the second. It was just as nice as his first, although

he did give a hint of surprise. "It was afterward that Uncle Dick showed himself most objectionable Two weeks ago, when I found that after all was said and done, it was really Clarence that I loved, I got a third letter from Uncle Dick-the brute! After acknowledging the recelpt of my announcement he went or to say:

"'Permit me, my dear, to congratu late you on your approaching marriage

"Then he inserted one of those stal signs (what do you call 'em-asterisks?) and added in a footnote: 'Here insert the name of the happy man!" -New York Times.

New Fishing Grounds Found. During the summer of 1914 the department of commerce, through the bureau of fisheries, conducted an exploration of certain fishery grounds off the coast of Oregon and Washington to determine, particularly, if halibut were present in sufficient quantities to support a fishery. The fishery steamer Albatross was used for this survey.

A halibut ground was found off Newport, Ore., covering an area of approximately 250 square miles. As an immediate result of the Albatross findings, fishermen made 21 trips to the ground, taking about 850,000 \$24,000. Trips yielding 40,000 pounds were made in four days or less. 1r. a field of grass in the height of the respective of the abundance of fish,

MEADOW LARK EATS MANY FARM PESTS

Meadow Lark (Sturnella Magna.)

(Prepared by the United States Depart-ment of Agriculture.) May is the month when the meadow

lark does some of its best work in aiding the farmer, for that is when the cutworms begin their career, and this little bird devours them by thousands. It also eats many caterpillars, and in the same month these creatures form over 24 per cent of its whole diet. Caterpillars which are ground feeders are often overlooked by birds which habitually frequent trees, but they do not escape the meadow lark. Ants, wasps, spiders, and chinch bugs are other harmful pests eaten by this feathered friend of humanity.

In 1,514 stomachs of the meadow lark examined, animal food (practically all insects) constituted 74 per cent of the contents and vegetable matter 26 per cent. As would naturally be supposed, the insects were ground species, as beetles, bugs, grasshoppers and caterpillars, with a few flies and wasps and spiders. A number of the stomachs were collected when the ground was covered with snow, but even these contained a large percentage of insects, showing the bird's skill in finding proper food under adverse circumstances.

Of the various insects eaten, crickets and grasshoppers are the most important, constituting 26 per cent of the food of the year and 72 per cent of the food in August. It is scarcely pounds of halibut, valued at about necessary to mention the beneficial effect of a number of these birds on grasshopper season. Of the 1,514 weather conditions and the lack of stomachs collected at all seasons of FOREIGN BODIES AND CATTLE the year, 778, or more than half, con

troubles. MOTHER GRAY'S ARO-MATIC-LEAF is sold by all Druggists or sent by mail for 50c. Sample sent weed, barnyard grass, and smartweed, are eaten from November to April, inclusive, but during the rest of the Le Roy, N. Y. year are replaced by insects.

Briefly stated more than half of the meadow lark's food consists of harmful insects; its vegetable food is composed either of noxious weeds or waste grain, and the remainder is made up of useful beetles or neutral in the bird's favor is that, although naturally an insect eater, it is ablo to subsist on vegetable food, and consequently is not forced to migrate in cold weather farther than is necessary to find grounds free from snow. The eastern meadow lark is a com-

mon and well-known bird, occurring council. from the Atlantic coast to the great plains, where it gives way to the closely-related western species, which extends thence westward to the Pacific. It winters from our southern border as far north as the District of though it is a bird of the plains, and finds its most congenial haunts in the prairies of the West, it is at home wherever there is level or undulating with plenty of water at hand.

The Secret of Health is Elimination of Waste

Every business man knows how difficult it is to keep the pigeon holes and drawers of his desk free from the accumulation of useless papers. Every housewife knows how difficult it is to keep her home free from the accumulation of all manner of useless things. So it is with the body. It is difficult to keep it free from the accumulation of waste matter. Unless the waste is promptly eliminated the machin-ery of the body soon becomes clogged. This is the beginning of most human illa.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

Assists the stomach in the proper digestion of food, which is turned into health-suntaining blood and all poisonous waste matter is speadily disposed of through Nature's channels. It makes men and women clear-headed and able-bodied --restores to them the health and strength of youth. Now is the time for your rejuvenation. Send 50 cents for a trial box of this medicine.

Send 31 one-cent stamps for Dr. Pierce's Common Sense Medical Adviser-1008 pages-worth \$2. Always handy in case of family illness.

Repeated Like Machine Gun.

The attention of the committee of eventy is invited to the device emrepeating; the voters' hands are marked with indelibile ink. It is reported that some of the voters have but it is not known whether they have rate, the practice of marking a man opens up considerable possibilities in the way of the purification of elections. For example, in one of our cities recently a one-legged negro was found to have voted six times. He went to the polls once with an artifionce with nothing but his natural leg bandage over one eye and then over the other, and on one occasion sticking some whiskers on his face, he man-

tained remains of grasshoppers, and one was filled with fragments of 37 conclusively that grasshoppers are preferred, and are eaten whenever they can be found. Especially notable is the great number taken in August, the month when grasshoppers reach their maximum abundance.

Next to grasshoppers, beetles make up the most important item of the meadow lark's food, amounting to 25 per cent, about one-half of which are predaceous ground beetles. The others are of harmful species.

Forty-two individuals of different kinds of May beetles were found in the stomachs of meadow larks, and there were probably many more which were past recognition. To this form and several closely allied ones belong the numerous white grubs, which are among the worst enemies to many cultivated crops, notably grasses and grains, and to a less extent strawberries and garden vegetables. In the larval stage they eat the roots of these plants, and being large, one individual may destroy several plants. In the adult stage they feed upon the foliage of trees and other plants, and in this way add to the damage which they began in the earlier form. As these enemies of husbandry are not easily destroyed by man, it is obviously wise to encourage their natural foes.

Among the weevils found in the stomachs the most important economically are the cotton-boll weevil and the recently introduced alfalfa weevil of Utah, Several hundred meadow ployed in Santo Domingo to prevent larks were taken in the cotton-growing region, and the boll weevil was found in 25 stomachs of the eastern meadow lark and in 15 of the western found it possible to erase the marks, species. Of the former, one stomach contained 27 individuals. Of 25 stomione this in order to repeat. At any achs of western meadow larks taken in alfalfa fields of Utah, 15 contained the alfalfa weevil.

The vegetable food consists of grain and weed and other hard seeds. Grain in general amounts to 11 per cent and weed and other seeds to seven per cent. Grain, principally corn, is eaten sial leg, once with a "peg" leg, and mostly in winter and early spring and their poults." This may be entirely consists, therefore, of waste kernels; and a pair of crutches. By putting a | only a trifle is consumed in summer and autumn when it is most plentiful, No trace of sprouting grain was discovered. Clover seed was found in only six stomachs, and but little in each. Seeds of weeds, principally rag- dew during the hatching season
