

## Mining News of Patagonia District-- Several Properties Being Inspected

J. F. Combs, foreman at the World's Fair mine, was in town Wednesday.

John Hoy returned to the Trench mine Tuesday, after a business trip in Nogales and Tucson.

J. F. Campbell left Tuesday night for Nogales, going later to Los Angeles and San Francisco on mining business.

Harold E. Bierce, manager at the Flux mine for the Sterling Borax Company, left today on a business trip to the coast.

Frank Reichert was in from the Bland mine last Friday and Saturday. He says development work is proceeding steadily on this Alto property and that another shipment will be made soon.

Mr. Heslett, a well known mining man who has been in Sonora for years, came in this morning from Nogales and will look over properties in this district. He was accompanied by C. H. Hector.

The new shaft at the Trench mine is down over 100 feet. They have been making five feet a day, but have struck water and will not be able to make as much ground from now on, although the work is being pushed vigorously.

## Dance at the Opera House

A very successful dance was given last Friday night at the Patagonia opera house, Miss Isabella Stone being the directress. About thirty couples were in attendance.

The feature number of the evening was the moonlight waltz, during which the lights were turned low to give the proper setting, and the beautiful selection, "Aloha-Oe," was rendered by the five-piece Mexican orchestra from Nogales. Lunch was served at midnight.

Besides the large number of home folks in attendance, the following were from out of town:

Mr. and Mrs. J. E. Gatlin, from the San Rafael Valley.

Mr. and Mrs. W. R. Stevenson from their ranch near Bisbee.

Mr. and Mrs. Ray Sorrells, from their ranch west of town, and Miss Willie Pyentt and Irvine Pyentt, from Canille.

Misses Hummell, from Sonoita.

Miss Jacobs and Miss Kilpatrick, from Sonoita.

Mrs. Davidson and Miss Davidson, from Sonoita.

Glenn, Guy and Pete Perry

Why not patronize home industry? You can get the latest styles of Hair Cuts at the Patagonia Barber Shop. —Adv

**Why don't you build NOW before the price of Lumber advances?**

Don't you know that now is the most economical time for you to build? Don't you know that when this war ends there will be a tremendous foreign demand for Lumber and other Building Materials to repair the damage that is being done over there? And don't you know that this foreign demand will advance the price of materials in this country? We can sell you building material at very reasonable rates today. Tomorrow is mighty uncertain.

**PATAGONIA LUMBER CO.**

## LOCAL AND PERSONAL NOTES

Mrs. Hugh Young has been very ill this week.

Judge A. S. Henderson was a visitor to Nogales the early part of the week.

George Ringwald arrived here this week from Bishop, Calif., and joined Mrs. Ringwald and little son in the San Rafael Valley, where they have taken up a homestead.

The Southwestern Democrat has arrived on our exchange table. It is a new publication started in Phoenix by John W. Martin, well known newspaperman of the state capital.

Mrs. James Barnett, who looks after the S. P. interests at the Elgin station, was the guest of Mrs. James Kane over Sunday last. She had just returned from a pleasant trip to the Panama-Pacific Exposition at San Francisco.

Jeff D. Rountree was a Nogales visitor this week, stopping here en route. He is drilling a well on the Titus ranch near Elgin and will take his rig from there to the Babacomari ranch, on which he has a contract for a number of wells.

Mrs. C. C. Chapman, Miss Willie Chapman, Howard Chapman and Robert Bergier were down from the Alto section last Friday in attendance at the dance in the opera house. They report the mountain roads very rough for automobiling.

A farmers' convention and motorcade will be held at Douglas today and tomorrow. Professors from the College of Agriculture, University of Arizona, and leaders of Cochise county farm improvement associations will be present and make addresses. An automobile trip will be made to several points in the county and an inspection made of soils, growing crops, livestock, pit silos and pumping plants.

Mrs. A. H. Glidewell left last Saturday morning for Los Angeles to be with Mr. Glidewell, who is being treated by an X-ray specialist in the coast city. Some improvement has been made, he writes, but that he will have to remain quite awhile for a permanent cure. Mrs. Ira Ratcliffe, their daughter, who has been visiting here, with her little children, left Saturday morning for her ranch home in the Huachuacas.

Physicians' Prescriptions prepared at all hours, day or night, by Registered and Competent Druggists only. A full line of Rexall, A. D. S., Dykes' Specialties always on hand.  
We promise satisfaction or money cheerfully refunded.

Miss Lillian McFarland left Monday morning for a visit in Texas.

Miss Emma Kane returned today from pleasant visits in Tubac and Nogales.

Arthur Pattison, the little son of Mr. and Mrs. T. L. Pattison, has been quite sick this week with croup.

Nicholas Johnson and sons, Frank and Will Johnson, were up from Yuma for several days. They report the valley town as unusually warm now.

County Rangers G. Lou Stevens and Henry Woods came in Wednesday night from the border and left for the north part of the county Thursday.

Mrs. Anton Klein left Thursday for her home in Bisbee, after a short visit in Harshaw. She has been out to the coast and visited both expositions.

Miss Grace Van Osdale and sister, Mrs. Andrews, Mrs. H. T. Wilson and daughter, Miss Bessie Wilson, and son, Rodney Wilson, came out Monday from the San Rafael Valley, returning on Tuesday, when it was seen that the settlers and "regulars" had the border situation well in hand.

## SONOITA

Our Santa Cruz County Fair is put off a few days. Owing to the lateness of crops the management of the county fair thought it best for all concerned to place the dates for opening at October 8 and 9.

Mrs. Wade Purdum, accompanied by her daughter, Miss Edith Purdum, left Saturday to attend the Panama-Pacific Exposition in San Francisco. Miss Purdum is teaching expression in the State Normal at Los Angeles. She will not return with her mother.

Our Farm Advisor Paschall was with us Saturday, the 21st inst., and gave us a talk on "Underground Silos." He says they are the farmers' money maker in dry-land farming districts.

He went over to inspect Mark Manning's work on his silo. He had gotten down 8 feet Saturday and reported progress satisfactory, notwithstanding the hard ground encountered. He will have to blast from now on down. The silo is 10 by 25 feet.

We predict he will wish it much larger after using the succulent, delicious food it supplies for all manner of stock, as one Oklahoman beautifully said: "It supplies cooked corn for contented cattle."

Mr. Paschall suggested that farmers help one another, so as not to pay out money for help. This would enable neighbors to build even though little money should be at hand.

Charles Brossart reports progress selling fair stock and fruit trees.

Send us a little rain with your next good paper, Mr. Editor, and make us glad. (How about Thursday's rain?)

## New Tax Levy for Santa Cruz County

The new tax levy for Santa Cruz county has been fixed by the county board of supervisors and shows several changes from last year's figures.

The levy for the road fund last year was \$7,000 and about \$12,000 was spent for work done, leaving a deficit of \$5,000, and to meet this and raise the amount necessary for this year \$15,000 was levied.

There was raised for the general school fund last year the sum of \$7,000, but on account of new districts and the many new families who have come into the county, and the using up of the \$20,000 surplus on hand last year, \$18,000 is to be raised.

The rate in the Patagonia school district is 15 cents this year, instead of the 13 cents levied last year, on account of the loss in taxation of \$132,000 from mines that were running last year, but are not producing now.

The total rate for this district is \$2.065, the state rate having been increased \$.095 over last year by the State Tax Commission.

## SAN RAFAEL

Mrs. J. E. Gatlin and children visited at the J. S. Gatlin home Monday.

George Ringwald arrived in the Valley this week from Bishop, California.

Miss Pearl Arthur drove into Patagonia Wednesday with George Wilson. She is the guest of the Misses Stone.

Mr. and Mrs. Charles Curtis and two children arrived in the Valley Saturday night from Colorado. They are stopping at the home of Mr. Curtis' father, George Curtis.

## Passing of Mrs. Elizabeth G. Bodle

Mrs. Elizabeth G. Bodle of Bishop, California, passed away in Los Angeles on Tuesday, August 24, 1915, after an illness of many weeks. There were present her husband, John L. Bodle, their three sons, Lawrence, Louis and Alvin Bodle, all of Bishop, and two daughters, Mrs. A. L. Kinsley and Mrs. C. F. Young, both of San Rafael, Arizona. Interment was in Inglewood cemetery, Los Angeles.

Harry Riggs is making improvements on the property west of A. S. Henderson's store.

Calico and Tacky Dance at Fruitland Hall, Saturday night, August 28. Given by Fruitland Orchestra.

Many improvements are going on in this vicinity and materials purchased, but they are the continuing of those previously mentioned in these columns.

Samuel J. Pressler and Harry Leek were in Wednesday from the San Rafael Valley, Mr. Pressler going to Nogales, where he will be employed for some time on the Daily Herald.

## Reunion of Gatlin Family

There was a reunion the past week of Mr. and Mrs. J. S. Gatlin's family, all of the children except a daughter in New Mexico being present, including Mr. and Mrs. J. E. Gatlin and children, from their ranch in the San Rafael Valley; Mr. and Mrs. A. A. Gatlin and child, Temporal ranch; Mr. and Mrs. Jesse L. Gatlin and child, from their ranch near Bloxton; Mr. and Mrs. W. R. Stevenson and children, from their ranch near Bisbee; Harvey K. Gatlin, from his ranch near Clifton; Woody Gatlin, Patagonia.

## ELGIN

A. C. Dalton has corn six feet tall and a fine stand.

Roland Beaty returned Friday to Elgin from Calexico, Calif., where he has been the last 22 months.

Mrs. Leta Stokes and daughter, Mrs. Emma Marsh, left on Monday for their former home in San Francisco.

Miss May Chenoweth returned Monday to her home in Nogales after a week's visit with Mrs. T. J. Ilea in Rain Valley.

Mrs. Nell Bartlett and daughter, Miss A. Fern Bartlett, returned Thursday from their old home in Cleveland, Ohio.

Miss Dora Wilson, sister of B. K. Wilson, returned Monday to her home in Kansas City, after a two weeks' visit with Mr. and Mrs. Wilson at their Canille ranch.

Mrs. G. M. Cox came in Monday from Los Angeles, where she has been the past six months for her health. She is looking fine and says it seems good to get back again to Arizona.

Mr. Pike says if he has one more rain he will get ten sacks of beans to the acre on sod land. His trees, which were planted last spring, are looking fine, and had no water excepting the rainfall.

Mr. and Mrs. Cotton returned Tuesday to their home in Texas after a two weeks' visit with their son, Ben Cotton, at his ranch in the Vaughn section. They were well pleased with this country.

Mr. and Mrs. Slack returned Friday to their home in New Mexico after a week's visit with the Beatys. They were well pleased with the country and said they never saw better crops grown without rain.

Miss Vina Sorrells returned to her home near Harshaw Wednesday after a visit in Nogales with her aunt, Mrs. George Sayre.

## SHARP WITS TURNED TABLES

Moses Mendelssohn, Philosopher, Cleverly Evens Up Matters With Number of Feasting Cavaliers.

Moses Mendelssohn, who was the victim of much abuse, but whose sharp wit always turned the tables on his persecutors, was once sitting in an inn where a number of cavaliers were feasting. They observed the philosopher, and in order to annoy him sent him a plate of apple parings which remained from their repast.

The philosopher accepted the gift gravely and seemed plunged in thought. Then the cavaliers suddenly noticed that there were tears in his eyes.

"Why are you crying?" asked one of them.

"I am thinking of something my dead mother once said to me," replied Moses. "When I was a child I had a very sweet tooth, and mother tried to discourage me. Once when she caught me stealing some sweets she said: 'My son, if you keep on this way you shall have to be content some day with the leavings of pigs.'"

"But why are you crying?" reiterated the cavalier.

"Alas!" responded the philosopher "her prophecy has come true!"

Same as Now.

Mrs. Styles—This paper says in the days of old Rome a woman's character was known by her dress. The toga was worn by the men, but the stola was the raiment for the women.

Mr. Styles—And I suppose it was the custom for the wife to have half a dozen stolas to the old man's one toga.

Very True.

Mr. Bacon—I see in the Arctic region a man who wants a divorce leaves home in anger and does not return for several days. The wife takes the hint and departs.

Mrs. Bacon—But how is the wife to know if he wants a divorce or has gone away to avoid the housecleaning?

If.

American Tourist—So your brother went to America?

Peasant—Yes; an' he was makin' a mint o' money. If he'd lived he'd be a gentleman this day!—Judge.

His Excuse.

"You were a very long time going on that errand, Tommy?"

"Yes, mother, but you see I'm entered in a race at school tomorrow and I wanted to save my speed."

Light on His Feet.

"Judging from the way old Mr. Gadson tangoes, he doesn't feel the weight of his years much."

"No, and apparently he doesn't feel the weight of his sins, either."

Hurrying a Girl.

"I notice you hustle hurriedly down when Cholly calls."

"Yes; he always brings me a box of candy. But if I keep him waiting he'll begin eating it."

## WOMAN'S REASON.

"She's very masculine, isn't she?"

"She is, and she isn't."

"What do you mean?"

"I asked her last week why she was so mannish and she replied, 'Be cause.'"

His Offense.

"Is this your first offense?" asked the judge of the prisoner at the bar after his conviction.

"No, your honor," was the reply; "I hired a lawyer once before."

Cause of Delay.

Mr. Gotham—If you don't hurry up dear, we'll be late for the theater.

Mrs. Gotham—Why, you're not going to drive the automobile down yourself, are you?

## TWO EXCELLENT CROPS

Benefit of Use of Leguminous Crops Just Appreciated.

Aggressive Campaign Waged for Past Few Years in Interest of Better Farming Has Not Been Without Its Reward.

(By T. PARKER.)

The soy bean, also known as Japan pea and soja bean, is one of the many good things that have come to us from Asia. The writer first grew it in 1872, but its real worth and value have not been appreciated by us until within the last few years.

As a forage crop, especially for hogs, it is exceptionally fine. For best

Roots of Soy Bean, Showing Nodules.

results the hogs should be turned on them about the time the bean in the pod has reached its full size, and before it begins to harden while the leaves are still green. The hogs will first eat the leaves, then the remainder of the plant until there is only the hard stalk left.

Soy beans require good preparation of the soil. Slipshod methods usually result in a failure of the crop. They may either be sown broadcast at the rate of a bushel per acre or planted in rows and cultivated. The latter plan gives best results. In purchasing seed, buy only bright, plump seed, the vitality of which is guaranteed.

Soy bean hay is of the finest and most nutritious quality. When cut at the proper stage of growth and well cured, it is relished by all kinds of stock.

The velvet bean is an important crop for the purpose of soil improvement, especially in cotton-growing territory. This plant has been grown in Florida and other southern states for a number of years. It is a rank-growing grass, the vines often growing fifteen or more feet in length under favorable conditions. The seed can

Roots of Velvet Bean, Showing Nodules.

be broadcast or planted in rows, but best results will be obtained when planted in rows and cultivated. The rows should be four or five feet apart and the hills two to three feet apart in the rows. Plant about three beans to the hill.

## ERRORS IN FEEDING PROTEIN

Plenty of Right Kind of Feed Is Required to Run Milk Machine to Its Fullest Limit.

It is a great mistake to give the cow indifferent care until her milk flow has greatly diminished, then try, by feeding her heavy, to get her back to her full flow.

The dairyman who withholds protein foods until the cows have cleaned up all roughage will soon learn the folly of his ways when he adds the figures of his milk checks.

A worse mistake than high protein feeding is made by many farmers. That mistake is not feeding enough of anything.

The man who goes into the dairy business thinking that selecting good cows and compounding balanced rations is all he needs to understand is sure to wake up a sadder and wiser man.

It requires plenty of feed to run the cow machine to its full limits. This limit varies more than most people seem to think.

## SELECT HIGH VITALITY SEED

Possess Power of Germinating Rapidly and Producing Healthy and Vigorous Plants.

(By W. W. ROBBINS, Colorado Agricultural College.)

Seeds with "high vitality" possess the power of germinating quickly and of producing healthy, vigorous plants. Seeds with "low vitality" sprout slowly and produce weak and spindling plants. The chief influences affecting seed vitality are as follows:

1. Age—Vitality of seeds decrease with age.
2. Maturity—Although seeds will germinate when not fully mature, the plants produced are weaker than those from fully matured seeds.
3. Size—Large and heavy seeds have a greater germinating power and produce plants with more vigor than small seeds.
4. Percentage—Seed should come from plants whose pedigree is known to be good. Strains that are "run out" produce seeds of weak vitality.
5. Methods of Curing and Preservation—Seeds cured and stored in a very moist atmosphere lose their vitality quite rapidly. Seeds should be stored in a dry, cool place.
6. Variety—Similar storage conditions do not affect all sorts of seeds the same. Vitality is a variety character.

## INSECTS KILL MANY TREES

Borers Found to Be Cause of Death of Fine Oaks in Sections of Some Eastern States.

Last year in sections of the eastern states many oak trees—some white oak, some chestnut oak, and a few black oak—died and from apparently no cause, except perhaps a season of drought. Examination of the bark disclosed the fact that borers had been at work in the trees, and these insects were doubtless the direct cause of the death of these fine trees. The larger galleries found underneath the bark of the trees were made

Work of Borers in Oak Bark.

by the common flat-headed borer, the smaller ones by the two-lined chestnut borer. Both kinds of larvae were present in the burrows.

## SILO IS QUITE ECONOMICAL

Preserves Palatability and Succulence of Green Corn Plant for Winter Cattle Feeding.

The Indiana experiment station gives the following practical reasons why farmers who keep live stock should build a silo. Here they are: The silo preserves the palatability and succulence of the green corn plant.

The silo increases the live stock capacity of the farm.

Silage is a good summer feed when pastures are short.

Because of the small amount of ground space required by the silo it is an economical means of storing forage.

The silo located near the feed manger is an assurance of having feed near at hand in stormy as well as fair weather.

The silo assists in reducing the cost of grain in fattening cattle and sheep.

Silage greatly increases the milk flow during the winter season and decreases the cost of production.

There are no stalks to bother in the manure when corn is put into silo.

All should understand that silage is not a complete or balanced ration. It is a succulent food and should be supplemented with some balancing dry feed.

## GOOD GROUNDS FOR POULTRY

Low, Heavy Soils Make Industry Precarious—Much of Success Depends on Warm, Dry, Sandy Loam.

There are people who will tell you that any kind of ground will make good poultry ground. It will not. Chickens can live on tolerably barren ground, but poultry success is not met on ground too poor to bear vegetation.

Low, heavy soils make poultry raising precarious. The loss by disease of many kinds in certain flocks can be traced directly to the low ground upon which they feed and run. Such soil is damp and cold the greater part of the year.

The success of many a poultryman is not always so much due to his feed and care as the warm, dry sandy loam the fowls live on.

In buying ground upon which to raise poultry look well to the ground you buy. If it is not ideal poultry ground in soil, drainage and location, you can scarcely make it that except at a cost that eats up the profits fast.

## Remedy for Feather-Eating.

Where feather-eating is practiced try giving the fowls some sulphur, one teaspoonful in the soft feed of every three fowls, two times a week.

## Why Men Eat More Than Women.

That men eat five or six per cent more than women—not because they are gluttons, but because they actually require that much more nourishment—appears as a result of an investigation made in the nutrition laboratory of the Carnegie Institute at Washington by Francis G. Benedict and L. E. Eames, says the Literary Digest. The reason for the discrepancy seems to be that women have a smaller proportion of active tissues than men of the same weight and more inactive material, such as fat. The investigation disclosed that the average woman generates only 1,355 heat units in the 24 hours, as against 1,638 produced by the man, or about two per cent more for the latter per pound of body weight. When groups were compared, after careful selection of individuals of nearly the same height and weight, the men were found to produce about 12 per cent more heat than women.

## Shake Into Your Shoes

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting, sweating feet. Makes new shoes easy. Sold by all druggists and shoe stores. Don't accept any substitute. Sample FREE. Address A. S. Olmsted, Le Roy, N. Y. (adv't)

## Choco—a Drink.

Here is another drink for the abstainer from Alcohol—"choco"—a genuine cheering cup that unites in itself the sustaining properties of the solid with those of the liquid, a cup that dissipates fatigue and renders life pleasurable." So said Voltaire, whose favorite beverage it was at the "Cafe Fropece." Choco is made by mixing coffee with milk and Chocolate. It is served steaming, frothing hot, and usually sipped with a spoon. Napoleon also delighted in the mixture.—London Chronicle.

## THE END OF THE ANT NUISANCE

No Need to Suffer Longer From This Pest

An old philosopher once said, "All these things shall pass away." It was a long, long time after this truth was given to the world, however, before a means was discovered to make ants pass away and stay away. In the meantime thousands of women in all parts of the world have been driven almost to distraction by this intolerable household pest.

It remained for a mere man to find the remedy. A baker and candymaker in Los Angeles, whose place was overrun with ants, had reached a point where he must either get rid of the ants or go out of business. After much experimenting he prepared a paste which drove every ant out of his shop in one day.

This wonderful remedy can now be had at all druggists under the name of Kellogg's Ant Paste. Try a package today, and you will never be annoyed with ants hereafter.—(Adv't)

## SOME ILLUSIONS OF YOUTH

Difficult Task Confronts Parent in Unfolding World to Child—Matter for Meditation.

The illusions which youth entertains about the things of the world are at once the most appalling and the most delicate things with which older persons have to do. There is no dodging the fact that the illusions must go. The conscientious mother who has taught her son that to lie is to sin knows quite well that when he grows older he will learn that lies are of two kinds, white and black, and that the time will come when he will have to tell white lies, and because they are so like the black lies against which his mother admonished, he will find it hard.

And the father who looks upon his daughter's innocence with pride will shudder a little at the thought that time will bring to her some cold examples of the duplicity of mankind. If he is fearful, it is not without reason; for on the parent devolves the duty of guiding the disillusioning process. As this is done well or ill, so will the child's view of life be influenced, a writer in the Indianapolis News remarks. If, for instance, a child reared in a home where kindness is master is suddenly confronted with the spectacle of two drunken men brawling in the street, the child's illusions are treated to an assault altogether beyond its power to combat.

In the course of events, it would naturally learn that men get drunk and fight, but that is a revelation which should come to a mind whose rules of conduct are pretty well established. In this case the parent may well be moved to anguish.

To unfold the world to a child is a matter for meditation and ingenuity, and the parent who leaves it to chance is no less guilty of maltreatment than the parent who wantonly exposes a child to a contagious disease, for the mind of a child is a delicate instrument of surpassing sensitiveness.

## Another Old Saw Broken.

Grubs—"Every man is the master of his own destiny. He can be what he desires to be." Stubbs—"Not in every case. Take, for example, the inmate of the penitentiary who desires to be an aeronaut."

## That Weak Back

accompanied by pain here or there—extreme nervousness—sleeplessness—may be faint spells—cramps—all are signals of distress for a woman. She may be growing from girlhood into womanhood—passing from womanhood to motherhood—or later suffering from that change into middle life which leaves so many wrecks of women. At any or all of these periods of a woman's life she should take a tonic and nerve prescriber for just such cases by a physician of vast experience in the diseases of women.

**DR. PIERCE'S Favorite Prescription**

has successfully treated more cases in past forty years than any other known remedy. It can now be had in sugar-coated, tablet form as well as in the liquid. Sold by medicine dealers or trial box by mail on receipt of 50 cents in stamps.

Miss Elizabeth Lordal of Berkeley, Cal., in a recent letter to Dr. Pierce said: "I was completely broken down in health, I wasaching and had pains all over my body and was so nervous that I could scream if anyone talked to me, but I had the good fortune to meet a nurse who had been cured by Dr. Pierce's Prescription. I have never had an occasion to consult a physician since—in excellent health."

**Dr. Pierce's Pleasant Pellets regulate stomach, liver and bowels—sugar-coated, tiny granules**

## May Lead to Contempt.

He—Do you know, you are so clever and charming and brilliant that I really feel embarrassed in your presence.

She—But you mustn't; really, you mustn't.

He (reassuringly)—Oh, I dare say I'll get over it when I know you better.—Life.

## WHAT TO DO FOR YOUR ITCHING SKIN

Eczema, ringworm and other itching, burning skin eruptions are so easily made worse by improper treatment that one has to be very careful. There is one method, however, that you need not hesitate to use, even on a baby's tender skin—that is the Resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of resinol ointment and resinol soap. This proved so remarkably successful that thousands of other physicians have been prescribing it constantly for 20 years.

Resinol stops itching instantly, and almost always heals the eruption quickly and at little cost. Resinol ointment and resinol soap can be bought at any druggist's, and are not at all expensive. Great for sunburn.—Adv.

## Removal of President.

No president of the United States was ever removed from his high office. The attempt was made to remove President Andrew Johnson, but it failed by one vote, and Johnson served out his full term.

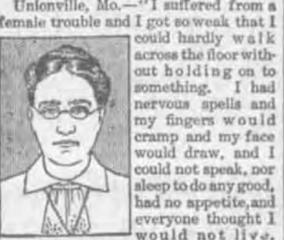

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny, granules, easy to take. Do not grip.—(Adv't)

## Time in Europe.

Despite the war, a conference is to be held to attempt to standardize time on the railways of Europe. Anyone who has traveled even a little on the continent will know how bewilderingly diverse are the railway times of different countries. Dutch and Spanish railways keep time of Greenwich, and so did those of Belgium until the "conquest," when their timetables were synchronized with the German. Our three enemy countries, together with Italy, Switzerland and Scandinavia, keep railway time just one hour ahead of us. Bulgaria and Roumania are two hours ahead, and Russia two hours and one minute. Other countries have time standards of their own, differing by half-hours and half-minutes.—London Chronicle.

## THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not speak, nor sleep to do any good, had no appetite, and everyone thought I would not live."

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering."—Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## Classified Column

**BOILER AND MACHINE WORKS**  
Founders, machinists, pattern makers, steel tanks, boilers, engines, ranges, furnaces, boiler repairs. Pioneer Boilery & Machine Works, S. W. Cor. Palmetto and Caroline Sts. Phone 3211, Main 2518.

**Sex and Ships.**  
It is impossible to say just why a ship is always, or generally, referred to as "she." It is a custom, and like most customs, especially those that are ancient, is veiled in mystery. Probably there is no particular "reason" for this custom.

## LOOK FOR THE WINCHESTER

## WHEN BUYING Rifle or Pistol Cartridges

Winchester Cartridges—the W Brand—are sure fire and accurate. In Winchester and other makes of guns they always give the best results and results are what count. They cost a few cents more than inferior makes, but they are dollars better.

Disillusioned.  
The cub reporter reported to the office. He was distraught, blue, broken in spirit.

"What ails thee, child?" queried the kind-hearted city editor.

"It was my first assignment," explained the cub, "and I found out that another legend has gone glimmering. De Fault, the thieving bank cashier, never taught in Sunday school."

## Affraid Idea Might Spread.

An English Tommy, taken prisoner by the Turks in Egypt, was asked by a Turk:

"Where did you get your watch?"

"Bought it," said the soldier.

"But you stole the money to buy it with, didn't you?" asked the Turkish Tommy.

"No, it was my pay."

"Pay! Pay for what?"

"For being a soldier."

"What do you get pay for being a soldier?" exclaimed the Turk.

Thereafter, English prisoners were kept in seclusion.

## Attention Buyers and Sellers!

We have clients with money to invest in large and small amounts. Partnerships that will stand rigid investigation. \$100 to \$10,000. A big list of exchanges all over the country. We bring buyers and sellers together.

O. F. Ashburn returned to the Pennsylvania ranch today after being away on a short business trip.

Mrs. Forsythe came up today from her ranch near Calabasas and is visiting Mrs. A. S. Henderson.

John Smith of Crittenden went to Nogales last night to see Mrs. Smith, who is ill in St. Joseph's hospital.

Mr. and Mrs. Mitchell are recent arrivals here. Mr. Mitchell being interested in the cattle that are in the Sonoita Grant pastures.

C. H. Hector, manager of the International Drug Company of Nogales was here today on a business trip.

Willie Balcom, who has been visiting his aunt, Mrs. James Kane, left Wednesday night for his home in Tabac.

The Misses Stone and Miss Pearl Arthur were serenaded last Thursday night by the Nogales Mexican orchestra.

Nicholas Farrell was in Nogales from Monday to Wednesday, returning to the San Rafael Valley with a nice looking 30 30.

### BANKERS URGED TO CO-OPERATE WITH FARMERS

SOUL MATERIAL HAS ENTERED  
THE BANK VAULTS OF  
THE NATION.

The Bank a Financial Power House  
to the Community.

By Peter Radford.  
One of the greatest opportunities in the business life of the nation lies in practical co-operation of the country banks with the farmer in building agriculture and the adventure is laden with greater possibilities than any forward movement now before the American public.

A few bankers have loaned money to farmers at a low rate of interest, and oftentimes without compensation, to buy blooded livestock, build silos, fertilize the land, secure better seed, hold their products for a better market price, etc. The banker in contributing toward improving the grade of livestock; the quality of the seed and the fertility of the soil, plants in the agricultural life of the community a fountain of profit, that, like Tennyson's brook, runs on and on forever. Community Progress a Bank Asset.

The time was when money loaned on such a basis would severely test the sanity of the banker; such transactions would pain the directors like a blow in the face. A cashier who would dare to cast bread upon waters that did not return buttered side up in time for annual dividends would have to give way to a more capable man. This does not necessarily mean that the bankers are getting any better or that the milk of human kindness is being imbibed more freely by our financiers. It indicates that the bankers are getting wiser, becoming more able financiers and the banking industry more competent. The vision of the builder is crowding out the spirit of the pawnbroker. A light has been turned on a new world of investment and no usurer ever received as large returns on the investment as these progressive bankers, who made loans to uplift industry. The bankers have always been liberal city builders, but they are now building agriculture.

A Dollar With a Soul.  
It is refreshing in this strenuous commercial life to find so many dollars with souls. When a dollar is approached to perform a task that does not directly yield the highest rate of interest, we usually hear the rustle of the eagle's wings as it soars upward; when a dollar is requested to return at the option of the borrower, it usually appeals to the Goddess of Liberty for its contractual rights; when a dollar is asked to expand in volume to suit the requirements of industry, it usually talks solemnly of its redeemer, but soul material has entered into the vaults of our banks and now, time and volume have a new basis of reckoning in so far as the ability of some of the bankers permit them to co-operate in promoting the business of farming.

Notice of Forfeiture.  
Patagonia, Arizona,  
July 1, 1915.

To A. L. Cane, deceased, his heirs and assigns:

You are hereby notified that we, the undersigned, expended during the year 1914 the sum of six hundred dollars in labor and improvements upon the following lode mining claims, situated in the Wrightson Mining District, Santa Cruz County, State of Arizona, to-wit:

The Pine Tree, the Fraction, the Snow Storm, the Great American, the American Boy and the Longfellow, the notices of location of which are recorded in the mining records of Santa Cruz county, Arizona.

The labor was performed and improvements made in compliance with the requirements of the United States laws, being the amount necessary to hold said mining claims for the year ending December 31, 1914.

Now, therefore, if within ninety days from the personal service of this notice, or within ninety

days after the publication thereof, you fail or refuse to contribute your proportion of said expenditure, as co-owner, to-wit: One-fourth, or twenty-five dollars, being your interest in the Pine Tree; one-fourth, or twenty-five dollars, being your interest in the Fraction; one-fourth, or twenty-five dollars, being your interest in the Snow Storm; one-sixth, or sixteen and two-thirds dollars, being your interest in the Great American; one-sixth, or sixteen and two-thirds dollars, being your interest in the American Boy, and one-sixth, or sixteen and two-thirds dollars, being your interest in the Longfellow, in all, the sum of one hundred twenty-five dollars, for the said year 1914, your interest in the said mining claims will become the property of the undersigned, your co-owners, who have made the expenditure required by law.

## A. S. Henderson Kitchen Economy

You can not save money as long as your profits go into the garbage can. And that is where impure and unwholesome groceries and provisions often find their way.

Shop the better way—buy foodstuffs that have no waste—make every ounce count in the strength and vitality of life. We offer you groceries and other eatables that will stand the test—that will register 100 per cent pure—that are cheapest because there is no waste.

It is economy to buy such goods—it is extravagant and wasteful to buy anything else.

Plug up the financial leaks in your kitchen and your pocketbook will experience a healthy relief.

This store is the home of "Kitchen Economy." Trade with us and let it mark the beginning of better financial days.
