

GERMANY GIVEN UNTIL MAY 12TH TO FULFILL TREATY OBLIGATIONS

SEVEN CITIES ARE CONQUERED BY 50,000 ARMED FORCE OF POLES

LONDON, May 5—Well armed Polish elements have forcibly taken possession of the wedge shaped region, the base of which is the former German Polish frontier and the apex of which has been reached at Strehlitz, declared advances. Seven cities were taken by the Poles who reached the Oder river and are marching northwest in the direction of Oppeln. It is reported that Italian troops are engaged in an artillery duel with the Poles and are attempting to take Gross Strehlitz. German forces are organizing to defend Rosenberg. German newspapers estimate the number of insurgents at 50,000. Allied officials here say the situation has reached a crisis.

PREPARATIONS BEING MADE FOR STATE FAIR

PHOENIX, May 5—If you have an idea as to how to improve the state fair, send it in to Clayton Bennett, secretary of the board of control. Mr Bennett announces that the fair commission and the board is always ready to receive suggestions calculated to improve the fair.

Incidentally it became known that the big grandstand has undergone extensive repairs which will make the stand considerably safer for the democracy of Arizona who are in the habit of attending the fair annually. The structural members of the grandstand have been reinforced. Another improvement resulting from public criticism is the new rest room facilities.

It has also been given out that there will be no state money appropriated or contributed toward defraying expenses of an inter-city automobile race. Up until last year it has been the custom for the fair commission to donate a sum of money annually to the Phoenix-El Paso road race. When the commission voted against such practice last year considerable criticism came to the commission and the administration, particularly from the local automobile sales concerns. The action of the commission, however, met with staunch support from the general public.

The matter of handling the crowds to and from the grandstand is being given consideration by the commission. It has been suggested that the ready handling of the crowds has been hampered by the placing of the many concessions along the main walk from the gate to the grandstand. If anybody has a suggestion to eliminate this congestion and still give the concession men a reasonable position on the grounds, the commission will be glad to hear it.

Already plans for making next year's fair a success are under way. The problem before the commission is to make the fair not only an educational event but one which will afford amusement and entertainment as well.

GOOD OPENING

Int he last issue of the Patagonian our Parker Canon correspondent asked the question why some one could not start a tannery in this section of the country. Our correspondent's suggestion is timely and practical, and we hope that some one will see fit to put his suggestion into practice. We observe in reading Texas newspapers that many small tanneries are being started up in different parts of the Lone Star State and proving a great boon to their respective communities.

BIG SALE AT OWL

The Owl Drug Store of Nogales is holding a big clearance sale the rest of this week according to an advertisement in this issue of The Patagonian.

The store at Nogales is decorated for the occasion and bargains galore are in evidence. Many people are attending the sale from various sections of the county.

The road will stand as a living monument to the efficiency and honesty of purpose of H. H. McCutchan and his fine corps of workmen. The men are using modern road building machinery and it is but little trouble for them to drill into the sides of the rocky bluffs and blow them to atoms. The broken rocks are used in filling in and widening out the road bed, after which about five inches of dirt will be placed on top. The road is being made about twice as wide as the old road, and cars will be able to pass each other at all points on the line.

Mr. McCutchan informed us that he is having no trouble in securing all the men he needs right here at home, and that it would be unwise for outsiders to come here expecting to obtain work. He is giving preference to the men who live in around Patagonia which is certainly the right thing to do. We hope to visit this camp from time to time as the work progresses and thus keep our outside readers fully informed as to what is being done and how it is being done.

We wish to publicly express our thanks to the McCutchan Bros for their courtesies so generally extended during this hasty trip.

Mrs. Baldwin of San Rafael Valley was here on business Tuesday.

Call of the Great Outdoors

YOU-HO-HO-HO!! COM' ON OUT

PERTINENT PATAGONIA PARAGRAPHS

ELGIN Extracts

One day last week Elgin was visited by one of the hardest wind storms that has ever been known in these parts. The roof of the car on the railroad right of way, used as a home by Eva Barnett, was blown off and literally torn into kindling wood. The railroad building gale lost no time in putting on a new roof.

The friends of Eva Barnett gave her a birthday party one day last week, and the birthday cake was a perfect beauty. It was a very large flannier cake, made and presented by Mrs. Rose Manson. There were games and dancing and other amusements, and all present enjoyed themselves hugely. Refreshments were also served and all left wishing Mrs. Barnett many returns of her birthday.

Mrs. Hanson entertained a party of friends at a May Day dinner Sunday. The dinner was just grand and the house was nicely decorated with flags. A good time is reported by all.

Mrs. Lillian Reeves and children left Saturday for her old home in Oklahoma for a few months' visit. We all miss her and the children.

Notwithstanding the unprecedented dry weather, everybody seems to be getting by in the same old way. Nobody has missed a meal yet, and nobody is discouraged, knowing that the rain season will soon begin and then the earth will be transformed into a veritable garden of Eden. Cattle will soon forget their former leanness and the dry farmers and cattlemen will no longer remember the days when they watched the brassy skies for a "cloud no larger than a man's hand." Copious rains will soon cover the fields and pastures, and prosperity and good cheer will be everywhere abound.

Quite a number of people from this section of country are planning to attend the Chautauqua at Patagonia this week.

SEND IN YOUR CHECK

The Patagonian calls on all of its subscribers to mail their subscription check immediately. It takes money to conduct a newspaper and we want the cooperation of every reader. The ones who read this notice know whether or not they are in arrears. Kindly mail your check immediately.

CHAUTAUQUA OPENS

The Edison White Chautauqua opened in Patagonia last night and is now in full swing with crowds coming and going from almost every direction. The entertainments are fine and a crowded house is expected from this time on until the close Sunday night. The show is well worth the price of a season ticket. Come along, everybody, and boost us as you come. You cannot afford to miss it.

SONOITA Sayings

Sonoita school has been closed for 3 weeks on account of Mrs. Brooks, the teacher, being sick. Her husband said he thought she would be able to begin teaching again Monday.

Mr. and Mrs. Land and baby of Tucson were callers at G. A. Bryant's on last Saturday.

Mrs. B. C. Larimore returned from Nogales Thursday where she has been visiting her son, J. W. Larimore, and wife, for several days. Mrs. V. A. Long took her home and spent today at the Larimores.

Mrs. G. S. Bryant went to Nogales Thursday to get dental work done. Mr. Bryant went after her on Saturday. Mrs. Bryant attended the lectures and says she had a fine time.

P. A. Honna said H. H. Riekwall was finishing the well for the Sonoita Mer. Co. This is the well Jesse Adams drilled on Geo. Crayne's place, but there was not an ample supply of water so Mr. W. F. Christmann is having it drilled deeper.

Miss Frances Passow has been quite sick for the past two weeks but was reported to be improving a few days ago. Mrs. V. A. Long has charge of the station until Francis is able to return.

Ralph Barney is at present working for Sam Knight.

Mr. G. P. Woodward and E. S. Black went up on Old Baldy last Saturday where they will resume work on building the trail.

The Pioneer Sewing Club did not meet at Mrs. Henry Leonard's on Friday, the 29th, on account of her not being able to entertain.

Mrs. V. A. Long and baby will go to Nogales Saturday and remain until Sunday and go to Tucson to visit her sister, brother and father for a week or 10 days.

We are glad to say that Mrs. Jim Vebir, who was kicked by a mule some 2 weeks ago, is able to return to her home in Empire Gulch, where she is improving fast. She will soon be all right again.

CIVIC BATTLE AT NOGALES At the county seat of Santa Cruz a full fledged civic battle is in progress. The Herald is conducting a war on the City Council for various alleged items of independent undermining to public officials. It is stated by The Herald that certain members of the City Council are recklessly spending public funds with no hint of economy. Instances are being cited.

Mr. and Mrs. Ray Blabon have recently moved to Patagonia.

CAMPAIGN FUND OF CAMERON IS UNDER FIRE

PHOENIX, Apr. 29—Rumors concerning activities of the grand jury with Senator Ralph Cameron's campaign expenditures gave way to fact today when it became known that the grand jury has summoned before it Andrew Baumert, chairman of the state central committee during the last political campaign.

Instead of asking, "Is the grand jury on Cameron's trail?" the man on the street is asking now, "Will the grand jury be able to hang anything on Cameron?" And if you take it from Andy Baumert, the federal probe are at liberty to search his records for damaging facts.

The subpoena served on Mr. Baumert directs him to bring with him and present to the jury all copies of telegrams and letters passing between him and certain men prominent in the state Republican organization, relating to expenditures of Senator Cameron in his campaigns for nomination and election as senator from Arizona. The persons named as possible recipients and senders of such letters and telegrams include Senator Cameron, his son, H. H. Heiner, of Superior, S. E. Kent of Phoenix, Charles McGarr, John McK. Redmond, Fred Hubbell, E. W. Campbell, George I. Shurtliff, C. A. Cameron and the late Allan B. Jaynes.

In brief, the grand jury requests all communications relating to money received or expended in aid of Senator Cameron's campaigns. They request also all records of moneys, vouchers and cancelled checks received or paid out.

Sitting in the ante room this afternoon where he had been waiting hours before being called into the jury room, Mr. Baumert informed the Herald correspondent that he was well equipped, he thought, to give the grand jury all the information requested. He pointed to two steel filing cabinet drawers on the floor before him, examined full of copies of correspondence passing through the office of the Republican state central committee at Phoenix.

"I guess I could keep the jury busy for a long time giving them the information contained in that mass of records," he remarked. "There is nothing to conceal," he added as he pulled out his watch and noted with manifest impatience the flight of time.

The summoning of Mr. Baumert follows on the heels of rather sensational developments revolving around the grand jury, Judge W. H. Sawtelle of the United States District court for Arizona, Attorney General Daugherty and the district attorney, Thomas A. Flynn. The attorney general had ordered Mr. Flynn not to attend any sessions of the grand jury during which it was proposed to take up the investigation of campaign expenditures.

The jury, when informed of the request of the attorney general, reported the matter to Judge Sawtelle and requested instructions. The judge informed them that if they wished to proceed with their investigation they could do so. The following day he instructed them that it was their right to demand the presence of the district attorney at their sessions and to request his full cooperation. He also ordered to the district to give his full cooperation and furnish any and all information at his hand requested by the jury.

Mr. Flynn informed the court that he would obey his orders and would inform the attorney general at Washington of the court's attitude in the matter of his intention to harmonize his conduct with the wishes of the court in spite of any orders to the contrary from Washington. Although Mr. Flynn had wired Mr. Daugherty of his intentions last night he informed members of the press that he had received no reply to his wire up to a late hour this afternoon.

It is confidently expected in political circles here that when Mr. Flynn does receive a reply from his superior in Washington that it very probably will be in the nature of information announcing his success.

FACTS VS. FANCY

It was stated in the last issue of this paper that the cotton placed around trees in the yard of C. A. Pierce looked good but were not effective in their effort to keep the cotton worms down. Mr. Pierce wishes to state that so far as actual practice is concerned that this cotton does keep at least 75 per cent of the worms from crawling back up the tree. The most plausible reason why this ring is a partial success here is that our worms are matured in this wonderfully salubrious climate, and their environments are such that when they arrive at the said cotton ring they haven't the energy necessary to enable them to crawl over it. They are satisfied to go along the paths of least resistance.

CINCO DE MAYO

The Mexican population of Patagonia celebrated the 5th of May by giving a dance in the opera house Wednesday night. They report an enjoyable time.

ALLIES GIVE WORD RELATIVE TO TERRITORY OF OCCUPATION

LONDON, May 5—The allied ultimatum issued to Germany today summons her to reply categorically by May 12 at the latest as to whether she will perform her unfulfilled obligations under the Treaty of Versailles, primarily as to the payment of reparations to Allied powers. Should Germany fail to comply the Allies give notice that they will proceed May 12 with the occupation of the Ruhr valley "and to undertake all other military and naval measures."

The terms of Germany's payment of her debt to the Allies will be given here by the reparations commission by tomorrow. Meanwhile the Allies, the ultimatum states, will continue with all necessary preliminaries for the occupation of the Ruhr valley. The ultimatum was handed to Dr. Stamer, German ambassador at London, this morning.

San Rafael Siftings

Mrs. Jessie M. Eagles and her brother-in-law, Ray Foster of Mowry, were business visitors in the valley one day last week.

Mr. and Mrs. Otho Kinsey are living near Sonoita, while Otho is employed at the highway road camp.

Mr. and Mrs. J. D. Rountree attended the ball game at Patagonia last Sunday and were accompanied by the Misses Melvina and Rose Williamson.

Ben Curtis and Esau have moved into the Prosser house and have a new son, born May 1st. Mother and babe doing nicely.

Mr. and Mrs. Chester Faddens and little son have gone to California on a pleasant visit here with Mrs. Faddens' cousins, Mr. and Mrs. Clyde McPherson.

MINING NOTES

Messrs. McDonald and Kohler are at work upon the Main Haulage Tunnel for the American Life and Deep Down properties. It is stated that the work is progressing satisfactorily. This project will help that entire district as it cuts a number of the largest vein systems to be found in the Santa Rita mountains.

The Farley & Hall strike upon their Hardsell lease is developing nicely. Such men as Mr. Hall and Mr. Farley deserve the help and praise of the district, as they are working a number of men and during these times of unemployment such work does more good than most of us realize. Anything which would tend to hamper these men in their work would do harm to the district.

Several of our local miners are negotiating for leases and it is hoped that they will all be successful.

It is reported that the long prospect drift from the bottom of the new Mowry shaft has encountered a good head-silver ore and that this drift is now developing a tonnage of these ores quite satisfactory. The work upon the Mowry has been going on quietly yet steadily, and we will hear from this old producer some of these days, for the Mowry is certainly a great property.

The diamond drill contractors have not started a job upon the Hardsell as yet, but are expected to arrive most any time now.

It is reported that Jerry Sheehy has made a big strike in his Red Rock property. No particulars are obtainable at this time.

JOB PRINTING

If you have a job of printing bring it to this office and we will see that it is delivered in record time. The printing is done by The Herald's big job printing department and is delivered promptly. Try us.

THE AMERICAN LEGION

(Copy for This Department supplied by the American Legion News Service.)

WOULD PROBE LEGION CLAIMS

International Association of Rotary Clubs, Shocked at Reports, Orders Nation-Wide Survey.

Aroused by charges of the American Legion that the government has failed in its duty toward disabled veterans of the World War, the board of directors of the International Association of Rotary Clubs has ordered a nation-wide survey of the situation.

The Rotary organization has endorsed the Legion's consolidation program for the relief to the disabled and will support the Legion's efforts to obtain its enactment into law.

The 50,000 American business and professional men who form the 800 Rotary clubs of the United States, have started out to gather the actual facts in their respective communities with regard to the manner in which the United States government is handling the cases of disabled ex-soldiers.

The Rotarians have been shocked by the disclosures made by the American Legion regarding the circumstances surrounding the rehabilitation of Uncle Sam's disabled ex-service men. Each Rotary club is appointing a special committee to investigate conditions in its community and report to the club.

"I hope its findings will be given the widest publicity," he said, "it will be found that the Legion has not overrated the case in any particular."

LEGION MAN IS LEGISLATOR

California Member of National Executive Committee Also Serves as Maker of Laws.

Although he was forty-one years old when the World War started, Charles H. Kendrick of San Francisco, Cal., member of the national executive committee of the American Legion, served with distinction in the army.

Mr. Kendrick was educated in the public schools of San Francisco and is engaged in the selling of real estate and development of agricultural lands.

Commissioned a captain in the Infantry service in August, 1917, Mr. Kendrick trained at Camp Dix, N. J., and was sent overseas in July, 1918, attached to the Twenty-sixth division as regimental officer.

Mr. Kendrick's devotion to Legion affairs during the time he was a member of the state executive committee led to his selection as representative of California on the national body.

Press Women Are Interested. The Women's Press club of New York city has become interested in American Legion welfare work and has adopted a ward at Fox Hills hospital, Staten Island, New York, containing 65 disabled veterans.

Virginia Auxiliary Convention. The first convention of the Women's Auxiliary of the Virginia Department of the American Legion will be held May 13 and 14.

Legion News in Native Language. Veterans of foreign parentage will read American Legion news in their native languages as a result of the addition of more than 100 foreign-language newspapers to the mailing lists of the American Legion News Service.

When Jobs Were Scarce. Jobs were so scarce in New Orleans that American Legion employment bureau officials chose between veterans with similar qualification by rolling the dice.

BIG CHIEF IS LEGION BOSS

Only Full-Fledged Indian at Head of an Ex-Service Men's Organization in America.

Major A. B. Welch of Mandan, N. D., is the only full-fledged Indian chief and commander of an American Legion post in America.

A veteran of the Spanish-American war and a participant in the Mexican border expedition, as well as an authority on customs, sports and ceremonies of the Indians, citizens of North Dakota were eager that Major Welch should lead a battalion of Indians to France.

Nevertheless, a number of Indians were included in the detachment of men which Major Welch took to France in December, 1917. He served upon the staff of Gen. Hunter A. Liggett and on Armistice day was with the artillery of the Third division, south of Sedan.

During the Philippine Insurrection Major Welch was a participant in the

MAJOR A. B. WELCH.

capture of Paco, Morong and other towns along the shores of Laguna de Bahis, including the important city of Calamba.

Major Welch and state officials of the Legion will speak at funeral ceremonies for Albert Grass, grandson of Chief John Grass, who was killed in action near Soissons. The Indian hero, who went overseas with Major Welch, will be buried at Cannon Ball, N. D., with the full tribal rites of the Sioux Nation.

BIG MEN AS LEGIONNAIRES

Pershing and Wood Are Numbered Among Members of Posts of Ex-Service Fellows.

The American Legion has represented in its membership not only the first and last men to enlist for the World War, but also two of the best known military leaders in America.

Two Legion posts assert that General Pershing belongs to their organizations. They are the George Washington post No. 1 at Washington, D. C., and Lincoln (Neb.) post No. 1. General Pershing was considered for the nomination of national commander of the Legion, but declined to allow his name to be presented because of his military duties.

General Wood is a member of General George B. Crook post No. 434 of Chicago. He has spoken at a number of Legion conventions in many parts of the country and has been an active worker for the interests of the ex-service men's organization.

NAME LEGION POST FOR HERO

Connellsville (Pa.) Organization Honors Memory of Milton Bishop, One of Its Dead.

Ever mindful of their fallen comrades in France, members of the American Legion have named the greater part of their posts in honor of men who made the supreme sacrifice.

When a post of the Legion was organized at Connellsville, Pa., it was named Milton Bishop post No. 301, in commemoration of the heroism of the heroism of Mr. Bishop, who was killed in action.

Mere Words. Rub—Binks married because he was homeless. Dub—And now I suppose he is homeless.—American Legion Weekly.

Navy Balloon Pilot Joins Post. Lieut. Louis A. Kloor, pilot of the navy balloon which became lost in the Canadian wilds last December, has joined the naval auxiliary reserve post of the American Legion in New York city.

LADDIE BOY, the President's Air-dale, is a general favorite at the White House, and there are rumors of a building soon to arrive. This has got Washington recalling the days of the Roosevelt, when the whole place was overrun by all sorts of curious animals sent the colonel and his children by admirers.

WASHINGTON GOSSIP

Germany Held Responsible, Must Atone

WASHINGTON.—The United States holds Germany responsible for the war and will insist that Germany make all the reparation in its power for the devastation and sufferings of innocent peoples wrought by its inexcusable act of aggression.

Whatever peace program the administration evolves is to be made consistent with this fundamental declaration. The United States will do nothing that would permit Germany to escape full responsibility for the war.

Wireless Now Writes Its Own Message

BEATING the German and other foreign scientists to the goal in inaugurating a new era in wireless communication, Dr. E. A. Eckhardt and Dr. J. C. Karcher of the bureau of standards have succeeded in recording radio signals automatically.

When this invention is perfected and in general use receiving operators listening day and night for the signals with their elaborate listening apparatus will be unnecessary.

Before a group of fellow scientists at the meeting of the Philosophical society at the Cosmos club, Doctors Eckhardt and Karcher demonstrated that their apparatus could take out of the air signals sent out from Lyons, France, 4,000 miles away, and automatically transform them into lumpy ink lines on a chart that can be easily read.

Red Cross Work Among the War Veterans

by the nation-wide chain of chapters, through which a large extent Red Cross service is made available to former soldiers, sailors and marines and their families. The bulk of chapter expenditures is for home service and financial assistance to veterans.

As a result of the readjustment three major Red Cross services for veterans are now grouped under the direction of Arthur Foote, former major attached to general staff of the army.

INCREASING seriousness of the problem of the care of veterans of the World War, as manifested in but one of its phases, is shown in a statement by the American Red Cross that its work alone in this field now involves an annual expenditure of approximately \$9,000,000.

Uncle Sam's Big Claims Against Germany

GERMANY is kicking over what it calls excessive reparations demands of the allies. Doubtless it has another kick coming over an additional little bill of \$800,000,000 to \$700,000,000 which Uncle Sam has to present on the same account.

The bill includes claims filed with the State department for losses of various kinds footing up about \$221,000,000; claims of American residents of Germany for property taken from them there amounting to \$191,000,000;

American insurance companies demand about \$85,000,000; and the government itself would like \$80,000,000. The miscellaneous list, first indicated, includes claims for loss of life, personal injury, vessels sunk by submarines, cargoes lost by same means, insurance paid and premiums on war-risk insurance.

Band Concerts on the White House Lawn

the Easter egg-rolling was resumed. It was the first time the children participating have enjoyed this forty-year-old custom, since those who would have rolled in the last few years had they been permitted have grown too old and dimmed to do so.

On this same south lawn, one of the most beautiful spots in all Washington, it already has been decided that the Marine band concerts will be resumed. For many years on Saturday afternoons in the summer the band has played here, people being permitted to stroll all over the enclosure from the south portico of the White House down to the semicircular iron fence which forms the southern boundary of the White House grounds.

and must be compelled to pay damages to the full extent of its ability as determined in a fair and just manner. Any suspicion in any quarter that the United States, after spending its blood and treasure in the war, would do or say aught that would enable Germany to escape fulfillment of its just obligations to the victims of aggression is not only absurd but distinctly repugnant to the administration.

This is the answer to the fears entertained among the allies that the United States contemplates a course which would encourage Germany to resist payment of reparations and to German hopes that the United States can be relied upon to help Germany escape paying the penalty.

That the President's attitude as to Germany's responsibility, however, means that the administration will accede to the wishes of the allies as to the continued participation of the United States in European affairs does not follow. The ratification of the Versailles treaty, even with such modifications as were embodied in the Lodge reservations, is now out of the question.

eter, and the naval observatory time signals sent out regularly by Annapolis. With this new apparatus the longitude of any spot far away from cables and wires can be determined to within two-hundredths of a second of time or thirty-three feet, it is declared. It was to fill this need of an autographic time recording apparatus to replace the present wire telegraphic ear-recorded methods of making scientific time observations that the bureau labored.

BROUGHT BACK OLD TIMES PASSED WITH FLYING COLORS

Familiar Phrase Touched Responsive Chord in the Breast of Former War Comrades.

A jostling, heaving crowd was struggling for the few vacant places on the last bus home. A tired-looking conductor, sweating on his breast the 1015 ribbon, regulated the rush. "Fall up!" he cried at length, effectually hurrying further progress to a sturdy built young man who had swung himself on to the platform.

The latter stepped off reluctantly, exclaiming, "San Fairy Ann" the conductor turned quickly and laughed, and the demobilized soldiers on the bus who recognized the barbarous but familiar perversion of "Ca ne fall rieh," laughed with him.

Swiss Lakes Disgorge Relics. The recent drought in Switzerland has lowered the lakes so much that archeologists are having a great opportunity to examine the old lacustrine or pile dwellings which date back to the stone age.

Copper Mining in Alaska. The copper mines of Chitina valley are the largest and richest thus far developed in Alaska. Their successful development has been made possible by the completion of the Copper River and Northwestern railroad.

Not So Encouraging.

"Your father merely granted when I told him I wanted to marry you." "Don't be discouraged, Alexander. Father is an elemental creature and expresses pleasure as well as anger by grunts."

When there isn't much else to do with money, you can save it.

Captain Recognized Prospective Marine Engineer as a Man After His Own Heart.

They are so close in some parts of Scotland that the lakes can't get enough water, and have to go dry. A visitor tells the story of a Scotsman, a prospective marine engineer, who was being examined by the captain.

The engineer looked puzzled for a moment, unable fully to grasp the situation; then, with a knowing smile on his face, he answered: "I'd go up on deck and see whether there is any water in the lake."

Cement-Coated Nails. Approximately one-tenth of the wire nails manufactured are now cement coated, according to H. A. Knight, who writes on the subject to the Iron Age.

Forest fires, sweeping over 56,488,907 acres of land in 45 states, caused damage amounting to \$85,716,747 during the five years 1916 to 1920, inclusive, according to information made public by the Forest Service of the United States Department of Agriculture. This should be a lesson to the citizens of Santa Cruz county that will be instrumental in arousing them to the importance of helping to safeguard forest reserves of this district.

Women in Union county, New Mexico, are working to have on every lot a garden large enough to supply the family with vegetables the entire year, with sufficient surplus for each housewife to can or dry enough vegetables for winter use. And the ladies of Patagonia would be doing a real service to the community if they will start a similar campaign. All that a drive or campaign of this kind needs to make it a success is a good leader with an overplus of zeal and enthusiasm. By all means let us raise more vegetables. If you like your vegetables crisp and fresh, grow them in your back yard.

There are a lot of people in the world who may be led into temptation, but you never see them pulling back on the rope. Temptation is easy, but the resistance of it is not so easy. The reason temptation's work is so easy, the reason why so many men fall in with temptation, is because they are traveling that way and are rather glad of the chance to go along together. Many a young woman has credited herself with having been led into temptation when as a matter of fact she was headed in that direction when the tempter came along. The tempter doesn't have much luck with those going in the opposite direction, or those stanchly immobile. Resistance of temptation means a sensible, personal opposition to those things known to be subversive of morals and manners. A bandit, groaning on a cot in a prison cell, moaned that he had "made a mistake." Of course he made a mistake. He made a mistake by falling in with and staying in with criminals until he became a criminal himself. He made a mistake by supposing that stealing is an easier way to get money than working. He made a mistake by choosing to be a thief rather than an honest man. The same is true of all the fools, men and women, who made choice of what looks to be, as presented by the tempter, the easiest way. We have lately read more or less of so-called "master minds" in crookdom. Now there are no master minds among crooks. All crooks are fools. They, or some of them, have a sort of cunning which serves them in lieu of brains for awhile, but sooner or later, mostly sooner, they are run down by law and punished. As soon as a man commits his first major crime he becomes a marked man. He marks himself. Officers learn to read the marks, which become plainer in proportion to the number of crimes committed. The same with a woman. The markings of sin emerge from the depths of her being and register upon the face or the expression or the manner of the subject.

The increased number of divorce cases which are now filing the courts of the land are enough to cause the true manhood and womanhood of our country to rise in one united sentiment and demand that the laws relating to divorce be revised and reformed at an early date, before the whole social and moral foundation of the home and marriage relation be razed to the ground. Men and women should be taught and made to understand that the marriage relation is a divine and holy institution, and that marriages are not entered into on trial or probation, as a firm or business man would employ a person to work or do business for them. As to being virtuous, men and women, too, everywhere, and at all times, in single as well as married life, need the everlasting and eternal truth continually impressed upon their minds. That above all things virtue should be and must be protected. Not only is this divorce habit destroying the sanctity of the natural relations between parent and child, but parents are setting examples before their children who, likewise, when they are grown, marry, have a domestic trouble, fly to the divorce court, seek and obtain divorce, then marry off and marry again. The divorce evil ought to be checked immediately.

Dr. Sun Yat Sen, president of the Chinese Republic, will resign because he feels that he is not the choice of the people. It seems very hard to get the Chinese to adopt the ways of civilized nations. But maybe his name is Sun Set Sen. Those Chinese are peculiar. Even so, Sun Yat Sen would not be the first ruler of China to resign because of doubt as to whether he was the custodian of his constituents' confidence. The Chinese do many things directly contrary to the Western way of doing.

CANTUISTAS SHOOT UP TIA JUANA

SAN DIEGO, Calif., May 3—Shouting "Viva Cantu" a party of mounted men early this morning invaded the town of Tijuana, just across the line in Lower California and fired volleys of shots at the jail and a number of buildings.

Arizona National Guard To Camp At Smelter City

PHOENIX, May 4—About 400 members of the Arizona national guard will be ordered to Camp Harry J. Jones at Douglas to participate in the guard's first annual encampment since 1916. The encampment will run from May 29 to June 12.

The units attending will be all infantry units coming from Williams, Phoenix, Tucson and Casa Grande. The camp will cost the federal government about \$23,000. Added to this, the state will have to pay about \$10,000. The men are compelled to attend the encampment and will receive pay ranging upward from \$2.50 per day.

The camp will include infantry units only, being composed of rifle and machine gun companies. The work will be that of first year drill. The artillery units will hold their camp at a later date if the terms of the proposed army appropriation bill will permit expenditures for state guard encampments. The infantry encampment is being paid for out of the old army appropriation bill.

Mrs. Chapman motored to Nogales Tuesday and was accompanied by Mrs. Paul McIntyre. They returned home late in the afternoon after having spent a most pleasant visit in the border city.

A. L. Gustetter Is Appointed On Mental Survey

PHOENIX, May 30—An advisory committee whose function it will be to cooperate in the contemplated state wide mental hygiene survey to be made next fall, has been appointed by Governor Campbell.

The personnel of the committee is as follows: Dr. W. R. van Kleef, president, University of Arizona, Tucson, Arizona; the superintendent of public health, Phoenix, Arizona; Miss Elsie Toles, state superintendent of public instruction, Phoenix, Arizona; Dr. W. Warner Watkins, Phoenix, Arizona; Dwight B. Heard, Phoenix, Arizona; Dr. Mury L. Neff, Phoenix, Arizona; Dr. W. P. Sims, Bisbee, Arizona; Miss Christiana Gilchrist, care of Associated Charities, Phoenix, Arizona; Mr. T. C. Cavellier, care of State Board of Health, Phoenix, Arizona; Dr. Axel Martin, secretary, State Board of Medical Examiners, Phoenix, Arizona; Dr. A. L. Gustetter, president, Arizona Medical Society, Nogales, Arizona.

The survey will be made under the supervision of Dr. V. V. Anderson of the National Mental Hygiene committee. The work, which will be of inestimable value to the state, will be carried on free of charge. The survey will be made of all of the school children of the state.

FRIDLEY TRIAL OPENS

PHOENIX, May 4—The trial of Roy Fridley, former prohibition enforcement officer charged with transporting intoxicating liquor, opened in the federal court today. The trial is being followed with more than usual interest in view of persistent rumors that the defendant, if crowded, will give evidence involving certain federal officials. Fridley, it is said, made a statement to the county attorney declaring that he was forced to leave Phoenix while under bond pending trial, under pressure from a federal officer.

Olivar's Manila Quartet to Appear Here

Noted Filipino Orchestral Company Will Feature Native Island Music at Chautauqua on Last Day

Two musical programs of unusual interest are scheduled for the last day of Chautauqua in the coming of Olivar's Manila Quartet. This company of Filipino musicians came to the United States from the island four years ago and they have won repeated successes in their concert appearances in this country. They feature the beautiful melodies of their home across the Pacific, but present equally well our popular American ballads and the great classics of the musical library. It is a versatile organization, playing Oriental and Occidental instruments with equal ease and offering splendid vocal selections.

INVESTIGATORS PREPARE FOR LENGTHY PROBE

PHOENIX, Apr. 30—Conjecture is running rife now as to who will be called to testify before the grand jury in connection with its investigation of campaign expenditures of Senator Ralph Cameron. It is predicted that the investigation will be a long drawn out affair extending probably for two weeks or more. While it has been hinted that the expenditures of former Senator Mark Smith and the activities of the central committee of the two political parties will come under the probe of the jury, there has been nothing tangible as yet on which to base such a prediction.

That the grand jury has rolled up its sleeves and that the entire forces of the department of justice will bend all of their energies to the task of making a thorough canvass of the Cameron matter is indicated by the announcement that Judge W. H. Sawtelle has postponed for a week the opening of the federal court session in Globe. The federal court calendar in Phoenix was cleared yesterday. The change in plans of Judge Sawtelle is taken to mean that he will remain at Phoenix ready to handle any exigency that might arise in connection with the jury's deliberations now going on.

It is very probable that some important developments will take place having to do with the action of District Attorney Flynn in attending sessions of the jury considering evidence on the campaign expenditures of Senator Cameron. The attorney general at Washington on last Monday ordered the district attorney to keep out of the grand jury sessions during the investigation under the corrupt practices act. Judge Sawtelle instructed Mr. Flynn to attend such sessions and to give the jury all the cooperation requested. Mr. Flynn informed his superior at Washington of his intention to follow the order of the court in this respect.

When questioned by the Herald correspondent this afternoon, Mr. Flynn replied that at this time he "could not say" whether or not he had received a reply from Attorney General Daugherty on his recent wire.

"I must inform the press at this time," said Mr. Flynn, "that I have nothing to say on that matter at this time."

This is taken to mean that the attorney general has replied in a very definite manner to the district attorney's telegram stating his intention to proceed with the investigation. It is not very likely that Judge Sawtelle would have postponed his session at Globe if things were running smoothly as they might be in Phoenix. Should a new district attorney be appointed to the suggestion and orders of the attorney general be substituted by Daugherty for Flynn, it is not without reason to suppose that Judge Sawtelle would be forced to take vigorous steps to insure the uninterrupted progress of the grand jury's work on the Cameron investigation.

In short, the situation might settle down for the time being to a conflict between the district judge and the attorney general to see who is to have the running of the grand jury at Phoenix. In that event the district attorney would be torn between two forces. The attorney general might insist as his superior that the district attorney keep out of the investigation. The judge, if he follows the course he has laid out already, will request the district attorney to cooperate with the grand jury in its investigation. It is likely that with this possible situation in mind, Judge Sawtelle has deferred opening court in Globe.

E. M. Allen, manager of the Phoenix office of the Western Union, was summoned this morning. He was in the jury room for about two hours. While he would make no comment on the nature of the testimony he was called upon to give, it is presumed from the spirit of a handling he took into the room that he was asked to say before the jury all of the copies of telegrams passed between the state Republican headquarters during the campaign relating to Senator Cameron's campaign expenditures.

WONDER WHAT TEAM THIS GUY'S ON?

idea from Ed Vin Everett Column

**Catarhal Deafness Cannot Be Cured**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarh, which is an inflamed condition of the mucous surfaces of the system. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. TSC.

F. J. CHENEY & CO., Toledo, O.

**CO CURS HICCOUGHs**

Guy Williams, the little boy from town, says he has had a hiccough since Monday, until Friday morning, when they were stopped. During the time he tried every remedy suggested, but all of them failed to give the desired result.

Meridian (Tex.) Tribune.

One of the strangest things in nature is its reluctance to help for itself. If help is the best remedy, everybody knows, as so everybody knows, it is that Guy Williams, who had a hiccough since Monday, until Friday morning, when they were stopped. During the time he tried every remedy suggested, but all of them failed to give the desired result.

Meridian (Tex.) Tribune.

**ULTIMATUM TO GERMANY FROM BRITISH GOVT. IS PRESENTED**

**LONDON, Apr. 30**—An ultimatum to Germany giving 7 days from May 1, to comply with or refuse the Allied reparations demands was advocated by the British representatives in the Allied conference.

This proposal was opposed by the French and Belgians on the ground that it was unnecessary that Germany had sufficient time. Information was received by the French delegation from unofficial American advisers at Berlin urging the members of the German cabinet to accept the Allied terms agreed upon at Paris last January. In this agreement the Allies demand 236,000,000,000 gold marks in addition to the collection of twelve per cent of the export tax on German goods.

**BEHALF OF WORKERS**

Mr. Campbell returned the first week from a trip to Phoenix where he went for the purpose of interviewing Gov. Campbell and State Engineer Maddock with reference to the low wages being paid laborers at work on the state highway in Santa Cruz county. Mr. Campbell experienced no trouble in obtaining an audience with Mr. Maddock and Gov. Campbell, who gave him a respectful hearing. He pointed out to these gentlemen the impossibility of a man supporting his family on a salary of \$2.75 per day and being compelled to pay \$1.50 per day for board. The governor admitted that the wages are small but thinks that it is inadvisable to attempt to pay more at the present, as it is the intention of the administration to give employment to as many men as possible and thus enable them to tide over the general conditions of the country become better. He did, however, agree to a reduction of board for the men from \$1.50 per day to \$1.25 per day which will be quite a help. Mr. Campbell defrayed his own expenses in making this trip to Phoenix, and while he did not get all he asked for, yet he thinks that some good was accomplished and has hopes of better things for the future.

Street handkerchiefs, all colors. Washington Trading Co.—tf.

**Stephens Wants to Know Who Has Cattle For Sale**

**PHOENIX, May 2**—Cattlemen who have cattle for sale are requested by Ed Stephens, secretary of the livestock sanitary board, to let him know the number ready for sale at once. E. H. Crabb, chairman of the state livestock board, has been combing the northwestern states for good markets. He wired Mr. Stephens this morning to ascertain the number of Arizona cattle for sale.

All livestock inspectors have been notified to collect data on cattle for sale and send much information into the livestock office at once. It is announced that Mr. Crabb will be in Phoenix about May 10 and at that time he will announce in detail the plans for placing Arizona cattle in the northwest markets. The important item that the livestock officials want to put across is the fact that Mr. Crabb will be expecting to have all data in his hands at Phoenix by May 10.

Cattlemen need not wait to give to the local livestock inspector their data on the number of saleable cattle or hand but may send such information direct to Mr. Stephens at the capital.

**FINE BALL GAME**

The usual Sunday baseball game was played last Sunday between two amateur teams hastily picked up after it was learned that none of the "professionals" were to be here. It is said that the boys played pretty well. We have not been informed whether or not there will be a game next Sunday, but on account of the Chautauqua there probably will not be anything doing.

**MUCH LOCAL NEWS**

A great deal of local news will be found in this issue of The Patagonian. Attention is called to the various columns conducted by our correspondents. This reflects the happenings in various sections of the county.

**SUFFERING RELIEVED**

Miss Kathleen Edgell of Elgin was brought down here yesterday suffering from a bone felon on one of her thumbs. Dr. Rodden lanced and dressed the wound and the little miss was soon made comfortable. She returned to Elgin late in the afternoon where she is attending school.

**SHOULD ADVERTISE**

There are several firms in Patagonia not advertising in The Patagonian. We do not know who is the largest loser the firm that does not advertise in The Patagonian. We will compromise the question by stating that both are losers. The Patagonian is the organ for the people who reside in the north section of the county. It has a splendid circulation and deserves the support of the local merchants.

**ENJOYABLE DANCE**

There was a dance at the Patagonian opera house last Saturday night which was attended and enjoyed by a large crowd, quite a number of whom were visitors from various out-of-town points. The dancing continued nearly all night and a good time is reported. On Sunday night the Mexican people gave a dance at the same place, and they, too, report an enjoyable time. Both dances were furnished with good music.

**WEDDING ANNOUNCED**

The announcement of the marriage of Mr. Guy Perry of Patagonia and Miss Della Hummel of Elgin was announced in Nogales newspapers a few days since.

**WHAT ABOUT IT?**

Where will the big Fourth of July celebration be staged this year in the county? Last year a monster three-day celebration was held at Nogales and it is reported that the residents of the Key City are planning a like celebration this year. The 4th fall on Monday. Nogales plans to begin the celebration Saturday, 3rd, and wind it up with a big blowout on Monday, the 5th. Will Patagonia have a celebration or will it cooperate with Nogales? This is a question for our chamber of commerce to decide.

Ben Powell has just recently finished planting quite a large corn crop on the Sonora Grant, and the corn is now up to a fine stand and looking very thrifty and promising. It is certainly a fine piece of land and being along the Nogales road about two miles from Patagonia. Mr. Northcott, the owner of this splendid irrigated farm, also states that his barley crop is looking fit-ton and is almost sure to yield a heavy crop.

**MARITIME MEN OBJECT TO ANY REDUCTION IN DAILY WAGES**

**NEW YORK, May 2**—Union leaders predicted a walkout of marine workers called yesterday as a protest against the 15 per cent wage reduction which would result in 24 hours a complete stoppage of American shipping. News of the walkout decision was wireless to all ships flying an American flag yesterday after the international seamen's union, marine, firemen, oilers, water tenders union and marine engineers union had voted to resign their jobs rather than accept a wage cut. It is estimated 125,000 workers are affected by the walk out.

**CHANGE IN MANAGEMENT**

The Commercial hotel has changed management, J. Kent Prior retiring and Mrs. Wiseman assuming charge of this popular and well known hostelry. It is Mrs. Wiseman's intention to maintain the high standard of efficiency in the conduct of the Commercial which was so ably set by Mr. Prior, the former manager. We commend the new management to the traveling public.

**CHAUTAUQUA DANCE**

Another one of those delightful Chautauqua dances will be given at the opera house in Patagonia Saturday night, May 7th. The promoters of this affair are making a special effort to give the public a real old-fashioned good time, and everyone will feel at home and free to enjoy themselves to the limit of their capabilities. There will be good music and congenial companions and "joy will be unconfined." Be sure and come as you will be expected. If you fail to attend this nice social dance, your friends will be disappointed. Dancing will begin immediately after the close of the Chautauqua entertainment.

Work is progressing on the new home being erected by Tony Valenzuela near the public school building.

**VILLISTAS ACQUITTED ON MURDER CHARGES**

**DEMING, N. M., Apr. 29**—All of the sixteen Villistas were acquitted here this afternoon of charges of murder in connection with the raid of March 9, 1916, on the border town of Columbus, N. M. The verdict was reached on the first ballot. The jury was out 35 minutes.

There are still five indictments against the Mexican prisoners charged with murder in connection with the raid. These will be dismissed, District Attorney Forrest Fielder stated following the verdict.

The prisoners are still held in the Luna county jail, pending dismissal of the indictments, but will be released within a few days and conducted to the border, Mr. Fielder announced. "I am satisfied with the verdict," District Attorney Fielder said tonight. "I feel that the verdict brings the best solution to the problem. The Columbus raid is now a closed incident."

"I felt that the men should have been hanged if guilty and acquitted if innocent, and for that reason filed the complaint against them in first degree murder."

The Mexican prisoners faced their second charge of murder in connection with the raid, having been sentenced in 1916, pardoned by former Governor O. A. Larrazola last November, and since that time rearrested on new indictments returned before the pardon had become effective.

**CATALINA FOREST FIRE CONTROLLED**

**TUCSON, May 3**—The forest fire in the Catalina mountains which has been burning since Wednesday last week is under control Supervisor Calkins of the forest service announced.

One hundred students from the University of Arizona are working as volunteers and will keep up the fire line as long as needed.

The fire burned about 12,000 acres. No estimate has been made of the damage done.

W. M. Frierson of Taiban, New Mexico, who has been on a visit to his daughter, Mrs. Jack Parker of Parker Canon, for the past few months, was in town Monday and Tuesday enroute to Nogales.

Another thing, when you boost the town and its various enterprises, you are boosting your own personal interests.

Father Duval of Nogales held services at the Catholic church in Patagonia the first of the week.

C. J. Reason, representing the Arizona Republican of Phoenix, was in town a day or so the first of the week in the interest of his publication.

**NOGALES IS COMING**

Word comes from Nogales that many residents of that city will attend the Chautauqua dance which will be held here Saturday night.

Gardens in and around Patagonia which have been properly cared for are looking very fine and some of the gardeners have vegetables large enough to eat.

We understand that quite a number of ladies and gentlemen visited the famous Monkey Springs on the Ashburn ranch last Sunday afternoon and enjoyed a swim in the cool sparkling waters of this fine spring.

James Brash, whose orchard near Patagonia is one of the largest in the county, has been only slightly injured by the late frosts. Most of the peaches have been killed, but there will be a large apple and pear crop—not quite as large as last year, but last year was an exceptionally good one.

There will be no more preaching service here until Sunday, May 15, which will be the regular semi-monthly appointment of the pastor of the Methodist church. There is some talk of organizing a weekly prayer meeting.

The flower garden of Mrs. C. A. Pierce is a thing of beauty and therefore a joy forever. She supplied the Chautauqua with several baskets of rare and beautiful flowers which were the recipients of much praise.

Mr. and Mrs. C. L. Benty of Elgin, accompanied by Miss Kathleen Edgell, were Patagonia visitors yesterday.

Mrs. Fryer and Mr. Kent-Prior are visiting in Tucson.

Mrs. John O'Daly of Douglas visited his aunt, Miss O'Daly, for several days.

Mr. John McElhoney, who for a long time was bookkeeper for the Evans Mercantile company, has resigned his position and accepted a position with the state highway. L. H. Helmon, of El Paso, Texas, has accepted the position made vacant by the resignation of Mr. McElhoney.

**The Songs Everyone Loves**

The Oreida Ladies' Quartet at Chautauqua Feature Some of the Fine Old Songs of Yesterday

Songs that have stood the test of time songs that have lived yesterday and will still live tomorrow will be featured in the splendid programs to be presented at the Chautauqua by the Oreida Ladies' Quartet. This quartet is composed of four talented young ladies who come to the Chautauqua platform with a sincere desire to please. All possess real solo voices and their ensemble work is truly delightful in its artistry. The personnel is as follows: Ruth Creed, mezzo-soprano; Louise Woodruff, lyric soprano; Genevieve Peck, soprano; Norma Lee Harper, contralto and accompanist.
