REPUBLICANS NOMINATE H. HOOVER

Commerce Secretary Gets 837 Votes

PERSONAL AND SOCIAL

Charles G. Reeves and A. J. Stinson of Elgin were Patagonia visitors Sunday.

Judge E. L. Spriggs and Dr. T. B. Flits and families picnicked Sunday at the grove on Sonoita grant.

Mr. and Mrs. J. J. Sullivan and daughter, Mrs. Elbert Kinsley, and son, Mark Sullivan, were Nogales visitors Monday.

Mr. and Mrs. John Hunts and son, Wayne, of Tucson were week-end visitors at the Baldwin ranch in the San Rafael Valley.

Mrs. Clyde McPherson and Owen Dierking of the San Rafael Valley were Nogales visitors Wednesday.

E. D. Farley of the Homestake mine has been in town several times this week on business.

Wavil Dowd was a Nogales visitor Monday.

Edwin D. Raines of Squaw Gulch was a Nogales business visitor Monday.

Lou Quinn, emigration officer stationed at Tubac, was a Nogales visitor Monday.

Mrs. Frank Allison of Tucson is visiting her mother, Mrs. A. M. Fryer, and brother, Kent. She will remain here for about a month.

Clyde McPherson of San Rafael Valley was a Patagonia visitor Monday.

Mrs. F. A. Stone has purchased a new Buick sedan from the Nogales Buick Mercer Company.

Mr. and Mrs. Robert Thompson and daughter, Helen, of Canlie, were Parker Canyon visitors Monday. Mr. Thompson, who is a forest ranger, was on official business there.

Mrs. Bud Baldwin and Mrs. A. C. Bots were Nogales visitors Thursday.

Mr. and Mrs. Roy Murrell and family and Mrs. Haynie of San Rafael Valley were Patagonia visitors Monday.

Mr. Yarbro of Amado was a week-end visitor of Mr. and Mrs. Walter Woodman.

Mr. and Mrs. C. A. Pierce and children returned yesterday morning from a trip to Phoenix.

Mr. and Mrs. J. W. Williamson of San Rafael Valley were Patagonia visitors Thursday.

Mr. and Mrs. Blaine Lewis and Janet Lewis of Parker Canyon were a town Thursday.

Mrs. Gussie Bennett, son and daughter-in-law of Tucson have moved to Patagonia for the summer. The former resided here for a number of years.

RIVER COMMISSION TO REPORT TO CONFERENCE OF CITIZENS

Phoenix, June 14.—Gov. G. W. P. Hunt announced today that he would call a conference of the citizens of the state of Arizona to hear a report from the Colorado River Commission of Arizona and Senators Ashurst and Hayden and Representative Douglas on the problems connected with the Colorado River.

The proposed state-wide conference will be held in Phoenix at the earliest date convenient for our congressional delegation to be present.

The convention will be called by the governor, however, as early as possible, in order to avoid as far as practicable the injection of any political discord into the conference.

The purpose of the conference will be to acquaint the people of Arizona with the situation as it now exists, so that in spite of the political campaigns which will be waged in the state-national, state and local—a cohesive and constructive program may be outlined for the guidance of the representatives of Arizona during the period in which political differences may be widest, in order that when congress assemblies in December the cause of Arizona may not have been injured during the course of the campaign.

WM. FALTIN GETS FOUR-WEEK STAY OF EXECUTION

Phoenix, June 14.—William Faltin, who has been in the shadow of the gallows for 16 years, will escape execution scheduled for 5 a. m. tomorrow for the murder of Carl Peterson, through the action of the state board of pardons and paroles, which, called into session late this afternoon, granted the condemned man a reprieve of four weeks.

The reprieve was granted in order to give attorneys for Faltin time to prepare a plea to the board for commutation of the death penalty to one of life imprisonment.

Faltin was convicted of the murder of Peterson here on September 9, 1912. Since his original trial he has escaped the noose on several occasions, and spent two years in the state hospital for the insane.

Alex Somerville Dies

Nogales, Ariz., June 13.—Funeral services for Alex Somerville, 51, who died at 10:30 a. m. Wednesday at St. Joseph's hospital, will be held at 4 o'clock Thursday afternoon by the Elks' Lodge, of which he was a charter member. Death was due to a complication of diseases.

Interment was made in the Nogales cemetery.

Mr. Somerville was a resident of Mr. Somerville had been a resident of Nogales for more than 25 years, during most of that time he was superintendent of the Roy & Titcomb foundry. All departments of the firm will be closed for the funeral.

Deceased is survived by his mother, Mrs. James Somerville, a sister, Mrs. J. H. Bachelor of Berkeley, Calif., and a brother, Frank, of Westwood, Calif.

AMOS BETTS TO RUN AGAIN

Announcement was made this week by Corporation Commissioner Amos A. Betts that he will be a candidate for re-election to the corporation commission this fall.

MICKIE SAYS—

ONE KILLED, DRIVER INJURED IN AUTO WRECK

Monday morning about 6:30 o'clock on the Patagonia-San Rafael Valley road about 9 miles from Patagonia, Aureliano Rivera, 31, was killed and Gurney Dunham, 19, son of Mr. and T. G. Dunham of San Rafael Valley, had his lower jaw broken and received other injuries when the car, driven by Dunham, left the road, climbed a steep hill and turned over into a small wash. It is presumed by those who knew the driver that the accident was caused by excessive speed just for "the fun of it," as the road was not a dangerous one where the accident occurred.

The dead man was proprietor of a pool hall in Hershaw and had been in the San Rafael Valley for some time taking treatments from "Dr." Brock for tuberculosis, from which he had suffered for a long time. He was on his way to Patagonia with Dunham when the accident occurred which resulted in his death. Deceased was buried in the Patagonia cemetery Tuesday morning.

LIVESTOCK AND RANGES

Phoenix, June 14.—Although spotted rains in the higher elevations have improved the feed in those favored sections, rain is generally needed. Dry feed seems to be rather plentiful, but it contains but little nourishment. Browse plants are giving an increased amount of feed, and there is a good crop of mesquite beans coming on. Losses have been light to date and a very good crop of calves is reported, says M. R. Wells, agricultural statistician.

Cattle are holding up very well, but if summer rains do not come at the usual time, they will begin to lose flesh rapidly. Sheep have arrived on their summer ranges in a very good condition with very little "trial loss" reported.

Conditions reported June 1 as a percentage of normal were: Ranges, 75; cattle, 82; and sheep, 91.

"Here's a rattle for the baby," read a note on a stolen auto left near a police station in Chicago.

REPUBLICAN PARTY PLATFORM'S PAIN PLANKS IN BRIEF

Kansas City, June 14.—Here are the most important parts of the Republican platform as presented to the convention today by the resolutions committee:

Agriculture—Reorganization of the marketing system on sounder and more economical lines and creation of farm board with power to set up farmer-owned and controlled corporations to prevent and control surpluses through orderly distribution.

Prohibition—Observance and vigorous enforcement of 18th amendment. Honesty in government—Appointment of officials whose integrity cannot be questioned.

Campaign expenditures—Economy, honesty and decency in the conduct of political campaigns, with contributions for common good or not at all. Public economy—Pledged to live up to "high standard" set by President Coolidge.

Foreign policy—Maintenance of the Coolidge policies in Latin America and China, and endorsement of Multilateral treaty renouncing war.

Public debt—Continued reduction as rapidly as law permits.

Tax reduction—Further reduction of tax burden as condition of treasury from time to time may allow.

Tariff—Reaffirmation of party's belief in protective tariff and support of legislation to give farmer full benefit under it.

Foreign debts—Continued opposition to cancellation.

Mining—Stabilization of coal mining industry which will work with justice to miners, consumers and producers.

Highways—Continued appropriations for road building commensurate with needs and resources.

Labor—Continuation of efforts to maintain present standard of living and high wage scale and means provided to prevent excess of injunctions in labor disputes.

Railroads—Modifications or amendments of regulatory laws to meet changes in public demands, trade changes and character of competition.

Merchant marine—Maintenance of American built, owned and operated merchant marine and sale of shipping board fleet to private owners, with replacements, provided pending such sale.

Radio—Assignment of broadcasting channels in lines of all classes.

Waterways—Continued development of inland and intra-coastal waterways to give mid-west cheaper transportation to sea for its products.

Veterans—Full and adequate relief for disabled veterans.

Public utilities—Continuation of state regulations.

Navy—Maintenance of navy in all classes of ships to full ratio in Washington treaty.

National defense—Drafting of resources as well as citizens in time of emergency.

Indians—Creation of commission to investigate existing system of Indian administration.

Negro—Enactment of federal anti-lynch law.

Lo, an Indian in Nome, Alaska, who was convicted of deserting his squaw, has been sentenced by a native jury to pay her yearly alimony of one bull moose, ten mink skins, five fox pelts and 100 full-grown salmon ready to be canned.

Kansas City, Mo., June 14.—Herbert Hoover of California, war-time food administrator and for the last seven years secretary of commerce under Presidents Harding and Coolidge, was nominated for the presidency on a first-ballot landslide tonight by the Republican national convention.

Although his selection had been forecast for days, the proportions of his victory did not become apparent until the call of the roll actually was under way. He was helped on by his nearest competitor, Frank O. Lowden, of Illinois, who withdrew his name on the eve of the balloting because he could not approve the farm relief plank adopted today over the protest of the McNary-Haugh farm bloc, and in the end 24 of the 61 of Lowden's own state, Illinois, slipped into the Hoover column to help swell the total high above the majority needed to nominate.

On the one ballot Arizona's nine delegates voted solidly for Hoover.

After the rollcall was completed, Chairman Moses declares Hoover the Republican nominee for President. Governor Paulen of Kansas moved that the nomination be made unanimous. The motion was seconded by the Oklahoma delegation, and West Virginia followed suit. Then Chairman Moses put the question and the nomination was made officially unanimous, although there were some "noes" from the Wisconsin sector.

The convention then recessed until noon tomorrow, when a vice presidential selection will be made. The session had lasted from 7 p. m. to 11:25 p. m.

Following is the vote for president: Total vote cast, 1084; necessary for choice, 545. Hoover received 837, Curtis 64, Watson 45, Dawes 4, Coolidge 17, and Norris 23.

Mr. Hoch has wired Colonel Bird that he will take immediate steps to have engineers on the ground and work will progress rapidly. It is planned to spend \$100,000 on diamond drilling operations to determine the extent and depth of the ore bodies as well as their richness.

It is said that Mr. Hoch and associates will expend approximately \$5,000,000 in development work on the property if the option is closed after "through prospecting with diamond drills."

The deal goes through it is said stockholders of the Kino company will receive \$1.50 per share for their holdings and one share in the new company for each share of the Kino stock. The Kino Copper Company is the largest mining property in area in this part of the state, and if properly developed will give Santa Cruz county one of the largest mining companies in the southwest.

Nogales, Ariz., June 14.—Construction of a new \$500,000 business block the rentals from which will be donated to charity will begin here about September 1, it has been announced. The finances for the project were provided for in the will of the late Theodore Gebler, an old pioneer of Nogales, who died two years ago at the age of 94.

Christened Herbert Clark Hoover, the Republican presidential nominee, since he has been in public life, has discarded the middle initial and signs his name "Herbert Hoover."

He was born at West Branch, Iowa, August 10, 1874, son of a blacksmith and a Quaker mother. He was an orphan before he was 7 years old.

He worked his way to a degree in mining engineering and geology at Stanford, then a young university in California, getting his degree in 1895.

As an engineer he saw the world, following his profession in Australia, China, Russia, Alaska and Mexico.

An apprenticeship in the relief efforts that made him famous was served in Peking during the Boxer rebellion of 1900, when he organized his first food relief.

In London, when the World War descended on thousands of Americans in Europe, scurrying about trying to find a way to get home, Herbert Hoover headed an American relief committee.

His success in getting the Americans out of the clutches of the war resulted in his draft for the task of feeding Belgium. He assisted in the organization of the commission for re-

DAD AND I There's an American Osprey or Fish Hawk. The male is about two feet in length, the female larger. This bird is a great fisher but is often robbed of its catch by the Sea Eagle. There's one now! The Sea Eagle, with an awful shriek, dashes down on the Fish Hawk. The Osprey knows that shriek means "drop it" and it swerves to cause the Eagle to miss his stroke. The Eagle prepares to make another terrible swoop. Before the fish reaches the water the Eagle has it in his powerful claws. By Stafford

Film actresses employed by certain London producers have about as much liberty as a caged canary. Their contracts provide that they must not get fat, nor divulge trade secrets; must agree to obey all proper orders, suffer fines for unpunctuality, and must not marry without the company's permission.

How easy it is to be mistaken is shown in a recent case in Turin, Italy. Two days after 21 men and women had "identified" Signora Bettina Talghi as the kidnaper of two children, the real criminal was caught in Naples with the youngsters in charge. The two women bore little resemblance to each other.

Old automobile tires are extensively used for making crude shoes by rural people in Mexico and Greece.

Dr. Gruez of Vienna declares that few women have legs which are mates and that in most cases the difference between the two limbs are very marked. It is assumed that the doctor has enjoyed the interesting studies which led him into this conclusion.

Karl W. Lundberg found the right girl on the wrong boat when he tried to sail from Honolulu to San Francisco only to find that he had by mistake boarded a ship bound for Alaska. However, all ended well. The girl, then Miss Marie Benzet, whom he met and wooed while on his unpremeditated Alaskan voyage, is now Mrs. Lundberg.

Famous last words: "I believe that's his left headlight burning."

What's New?

Four-Legged Chicken at Elgin
Charles G. Reeves of Elgin, section foreman of the Elgin division of the S. P. railroad, reports that a chicken with four legs and a tail like a dog was hatched at his Elgin ranch last week. He did not say whether it barked like a dog or not, but we presume, on account of its age, it hasn't made much progress along that line. Anyway, a four-legged chicken is quite rare.

Lieut. Alford J. Williams has invented a new self-starter for airplanes. Storage batteries supply current to spin the propeller shaft.

In a recent test, liquid helium was reduced to a temperature of 468 degrees below zero, and it did not freeze solid.

For light automobiles a new tire with the air hermetically sealed inside was recently invented by a Frenchman.

A burner for gas stoves has been devised which lights when a vessel is placed on the plate, and goes out when the vessel is removed.

Musical instruments brought to the United States from the Stuttgart district, Germany, alone last year were valued at nearly \$1,000,000.

An ancient stone implement recently found at Eaton, England, is believed to be 75,000 years old.

A home-study class on "family and marriage" is announced by the University of North Carolina extension division.

There are about 200 women in the United States engaged in the practice of dentistry.

Ninety per cent of accidents occurring in industry, on the streets and highways, are from trivial causes.

So live that you can get sick and be delirious without later worrying over what you said.

BEFORE IMPROVING PROPERTY be sure your title is clear. Title to much land in Nogales, Patagonia and other parts of this county is cloudy.

WALTER P. CHRYSLER'S TRAFFIC TALKS

THE BACK SEAT DRIVER

Back seat driving—the giving of directions to the driver of a motor car by others in the car, is a well known automobile joke. But it is more than this. It is a real evil which results in more accidents than can ever be traced, especially when the car is in heavy traffic.

On trolley cars, in elevators and on public buses there is almost always a sign which reads: "Do not talk to the operator." This sign is placed by the company in an effort to safeguard the public by aiding the driver in his duty of concentrating on his job. It assumes, and rightly, that conversation is a bar to concentration.

There is no reason why the same rule does not hold good in the driving of pleasure cars. Aside from the annoyance of having a steady flow of conversation directed to one, which cannot always be answered, and often not even understood, there is the danger of being influenced by specifically wrong suggestions, even directions and commands, which it may not be wise or even possible to follow.

No one person in the car has the same angle of vision as the driver. The distances which he judges with his eye often seem quite close to those in other seats in the same vehicle. Even so, the manoeuvres should pass without comment, for that one outcry of distrust, or expression of lack of confidence, may be the cause of making the driver swerve ever so slightly to the right or left, thus spoiling his own judgment and causing an accident.

Driving in traffic is a job which demands attention and confidence, and anything which tends to break this attention or destroy a driver's confidence in himself is unsafe for all concerned. The person who interrupts this continuity of coordinated action is really a menace to himself and others.

When arrested for intoxication, Rev. Arthur Abernathy of Salisbury, N. C., told officers he took the drink because he needed a stimulant while delivering a prohibition address.

Speaking from his pulpit, Rev. Allen Hay of a New York City church, deplored the lack of marriages in his parish and reminded the women that this is Leap Year.

NEWS LETTER OF INTEREST TO MINE OPERATORS

Second Mining Conference
An enjoyable and profitable meeting of the mine operators was held at the Morning Glory Mine Sunday, June 10, upon the invitation of J. A. Hamilton, general manager. Mr. Hamilton and C. A. Pierce were perfect hosts, and a chef de cuisine was greatly enjoyed by 45 guests. Most of the party made an inspection of the mine, and surprise was expressed at the amount of work that has been done and the showing. Mr. Hamilton estimates that about 600,000 tons of milling ore has been blocked out.

It was decided at the meeting that a mine congress be held in Nogales in October. An effort will be made, through the Arizona Industrial Congress, to bring a large number of important mining men to this county at that time. Shore business sessions will be held in the mornings of three days; the afternoons will be devoted to visiting the Patagonia, Oro Blanco and Santa Rita mining regions.

Re-issue of the Mining Booklet
The mining booklet issued by the mining bureau of the Nogales chamber of commerce two years ago proved very valuable literature. Demands for copies of this book in quantity have come from all over the country. It has been decided to re-issue this book.

Aside from general articles on the geology and history of the mines of Santa Cruz county, a section of the book will be devoted to descriptions of properties as furnished by those directly interested in them.

Mine owners are requested to furnish a brief description of their properties, sending same in by July 15, if possible. It is hoped that we may have thorough cooperation, to the end that the mines of Santa Cruz county may be properly and fully covered.

Ore Samples Needed
The mineral relief map of Santa Cruz county has been placed in the lobby of the Montezuma hotel, where it has attracted much attention. Surrounding the map are pockets in which are placed ore samples of the mines of the county, each sample being numbered to correspond with a number on the map showing location of the mine.

It was decided at the meeting held June 10 to place on exhibit, in the center of the triangular park near the city hall, a large rack on which to display large ore specimens from the mines of the county. The larger the specimen the better, as there would be less inclination to carry them away. When opportunity affords, we would like to have these specimens sent in to the chamber of commerce, together with a description of the ore.

It was also decided at the meeting that an effort be made to engage the services of a high-class mining writer next fall and winter. Methods of financing same will be studied. The chamber of commerce would appreciate letters from mine operators stating whether or not they would be inclined to make financial contributions for this purpose.

The mining committee of the chamber of commerce, until a county organization of mine operators is perfected, must depend on cooperation from the individual mining men, and sincerely trust that in the interest of the mining industry of the county the mine operators will make it their business to comply with the request contained in the above statement. Because you are at present inactive or because you have nothing to sell, should not influence you to not cooperate at this time, because the advancement of the mining industry as a whole can not fail to be of profit to your own property.

Address all correspondence to the Nogales Chamber of Commerce.
DR. A. L. GUSTETTER, Chairman,
Mining Bureau, Nogales Chamber of Commerce.

ELKS TO CELEBRATE BIRTHDAY JUNE 23 AND 24

A regular meeting of the Nogales Elks' lodge will be held Thursday evening, June 21, at 8 o'clock, when candidates for membership will be voted upon. All members of the lodge are earnestly requested to be present.

The attention of Elks is also called to the "Birthday" celebration, which takes place Saturday and Sunday, June 23 and 24. An initiation in conjunction with Tucson Lodge will be held on a Saturday evening, and a lunch will be on the program Sunday noon in Nogales, Sonora.

A great time is anticipated, says Secretary Robert E. Lee, and a large crowd from the southwestern part of the state will attend the celebration.

If you can't boost this mining camp, don't knock it. It's going to boom!

BIG MOVIE COMBINE CONSIDERED BY NEW YORK BANKERS

New York, June 13.—Wall Street bankers have been discussing informally, it was disclosed today, the formation of another large moving picture and theater combination, from a group of companies, including the Stanley companies, First National Pictures, Warner Brothers, Pathe Exchange, Keith-Albee-Orpheum circuits, and Film Booking Offices.

Recent developments have tended toward such an alignment of independent companies. Bankers made it clear today, however, that there have been no formal negotiations.

Recently Miss Eleanor Raxton of Chicago kissed a judge for freeing her from a charge of speeding.

AUTO REGISTRATION INCREASES

Phoenix, June 14.—Automobile registrations for the year 1928 to date total 72,997 cars, according to a report issued by the motor vehicle division of the state highway department. It is estimated that approximately 15,000 additional automobiles have been registered by county assessors but have not yet been reported to the motor vehicle division.

The total number of automobiles registered during the year 1927 was 58,047.

A measuring machine is used at Princeton University to test the ability of oarsmen. The device measures the length of each man's stroke, the power of his pull through, his catch and his finish.

VIC GRIFFITH ACQUITTED OF EMBEZZLEMENT CHARGE

Tucson, June 14.—Victor S. Griffith, former county assessor of Pima county, was exonerated of a charge of embezzlement against him here yesterday, when the jury which heard the testimony at his trial returned a verdict of not guilty after three minutes' deliberation. Mr. Griffith had been charged in an indictment with having stolen \$1100 from the county.

John F. Pfeffer, his former chief deputy, has already been convicted on a similar charge. He was charged jointly with Griffith, but was given a separate trial.

Albert Schram, a farmer living near Yankton, S. D., uses an airplane to take his products to market.

1928 Vacation Directory Ready

A new edition of the Arizona Vacation Directory, sponsored by chambers of commerce, the Industrial Congress and other agencies in interests of the "See Arizona" movement, is now being printed and will be available for vacationists and tourists within the next week. The directory lists summer resorts throughout the state and also gives a brief description of the accommodations and diversions offered by each. Copies of it may be obtained from any of the organizations cooperating in the "See Arizona" campaign.

The man who stole George Fidler's cor from the street in Menominee, Mich., returned it an hour later with this note pinned to the coat: "This machine ain't worth stealing."

RULES OF THE CONTEST

1. No employe of the stores or relative of anyone in the store can enter the contest.
 2. No loitering or asking for votes will be allowed IN OR NEAR THE STORE. Ask your friends to take their votes home and save them for you.
 3. Your votes must be returned every Thursday to be added to your Record Card in the store. The color of the Vote Coupons changes every Thursday.
 4. Weekly Prizes given every Friday, beginning the second week, to the children who return the most Votes on Thursday. Watch for your number in the window each Friday.
 5. The Bicycle, Wrist Watch, Eastman Kodak, Coaster Wagon, Scooter and Basketball Outfit are final prizes. They will be given to the six children who return the largest total of votes during the whole 12 weeks of the contest.
- (A Girl's Bicycle if a Girl Wins)

REMEMBER! Your family, relatives and neighbors will help you. Ask them to save their votes. Ask us about daily extra vote specials—and watch for the weekly specials each Tuesday and Wednesday.

100 Votes with every 25c purchase; 400 Votes with every 50c purchase; 1000 Votes with every \$1.00 purchase.

CONTEST ENDS AUGUST 17, 1928

A Number of Smart Frocks

Are Necessary for Summer Comfort

Frocks of many types are on display in our department—and everyone can select enough for her summer needs—at the two economical prices below.

\$6.90 and \$9.90

There are tailored dresses for traveling and general street wear, pastel sport frocks and charming afternoon dresses—all moderately priced.

"I Wish We Could Get Out of Debt!"

Many families voice this complaint, month after month, and yet keep right on saying "Charge it" instead of "I'll pay for it now."

Being free from debt, and able to "look the future squarely in the face," is a big factor in success. No one does good work when they are worried about over-due payments, and if unemployment comes it can be faced much more easily when there are no bills coming in.

That is one of the most important ways a J. C. Penney Company Store serves the community. We can save you a small sum on every purchase, and keep you out of debt at the same time.

J. C. Penney Co.

Our Feature!
