

PERSONAL AND SOCIAL

A. G. Keating, president of the Big Jita Mines, Inc., was here for a few days over the week-end. He went to Los Angeles Tuesday on business, but is expected to return soon to complete installation of machinery at the mill.

Mr. and Mrs. Wayne Bleakley of Franklin, Pa., arrived here Tuesday and will spend some time at the winter home. Mr. Bleakley is a nephew of the late Col. R. R. Richardson and is engaged in banking in Pennsylvania.

Mr. and Mrs. J. W. Williamson and Mr. and Mrs. J. W. Buchanan of the San Rafael valley were Nogales visitors Monday.

Albert G. G. and J. K. were in Nogales Monday on official business.

Supervisor A. S. Henderson attended the meeting Monday of the county board. Mrs. Henderson accompanied him to the county seat.

Mrs. Ruth Quire was a Nogales visitor Monday.

Ed Ellis of Vaughn was a Nogales visitor Monday.

Robert Bergler left Tuesday for Rochester, Minn., where he will have an operation performed at the Mayo clinic to remove a growth from his neck.

A Ford car used by H. H. Rickard to haul milk from his Sonora ranch to Patagonia and vicinity, was wrecked Saturday morning by his son, who was driving. The car and contents piled up on the road near the Clark Z guest ranch. The driver escaped with minor injuries, but was saved from probable death by a milk bottle crate which kept the car from falling on him when it turned turtle.

Robert Bergler has purchased a lot in Patagonia and is having a new residence built.

Mr. and Mrs. H. B. Riggs were in the county seat Monday.

J. J. Sullivan and son, Mark, of San Rafael valley returned Sunday from a business trip to Nogales, Mexico.

Mr. and Mrs. Ed LeGendre and son, who have been seriously sick with influenza are improving.

K. R. Noggle of San Rafael valley was a Patagonia visitor Wednesday.

Roy Murrell and daughter, Mary, of San Rafael valley were Patagonia visitors Wednesday.

Mrs. F. B. Kollberg of the Mohock mine was a Patagonia visitor today.

Ray Marr, manager of the local drug store, was a Tombstone visitor today.

SCHOOL NOTES

(Don Garjce, Editor)

Joan Zinsmeister has left school.

Dolores Corales has entered the primary room.

The A Class has improved very much in reading.

Albert Corales, Lupo Alonzuela and Robert Rivera are ahead in number combinations.

The Fourth grade scholars are learning the process of long division.

The Third grade has learned the "4" tables. Pupils can add, subtract, multiply and divide rapidly with the number "4."

Fifth-grade girls are learning to make buttonholes. So far Ina Dawson has made the best one.

Fifth graders have completed the Geography of the United States and will have a final test on it Friday.

The first of the year, two new pupils entered the Seventh grade—Raymond Bergier and Trinidad Coronado. They are getting along well.

Martha Alonzuela is back in school after a three months' illness. We now have 25 in the Fifth grade.

The Seventh Grade Reading Club on Friday, December 28, 1928, new officers were elected, as follows: Clate Gatlin, president; Bernardo Valenzuela, vice president; Margaret Pearson, secretary, and Macario Saldate, editor.

Friday, January 4, 1929, stories were told by Andrew Floyd, Clate Gatlin, Donald Haverly and Carmela Steele. Andrew Floyd told about the "Gorilla and the Bad Boy," Clate Gatlin told about "The Spuds," Donald Haverly about "Tom Sawyer Abroad," Jesse Gatlin about "The War Dance," and Carmela Steele told about "Echo."

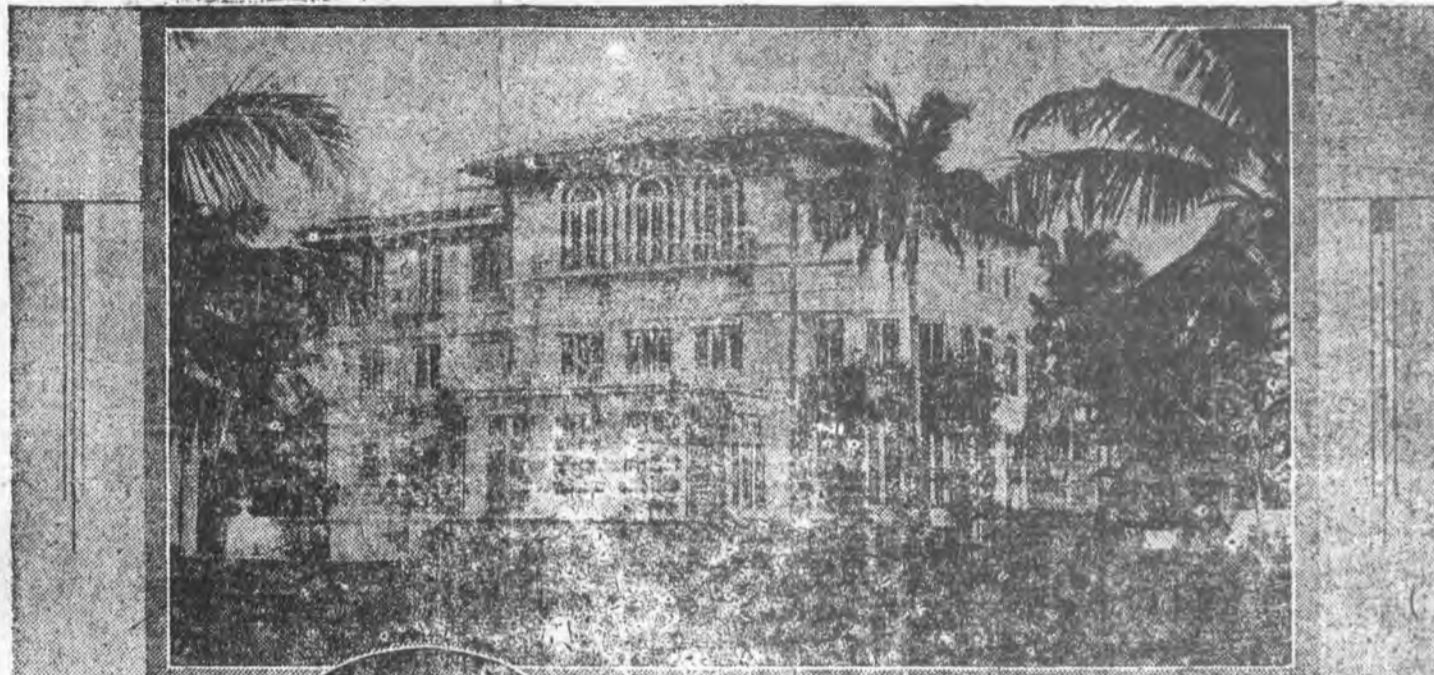

TEX RICKARD DIES IN FLORIDA

Miami Beach, Fla., Jan. 7.—George L. (Tex) Rickard, czar of the fight game, died here yesterday morning following an operation for the removal of his appendix. Mrs. Rickard, Jack Dempsey and a group of friends were at the bedside when the end came.

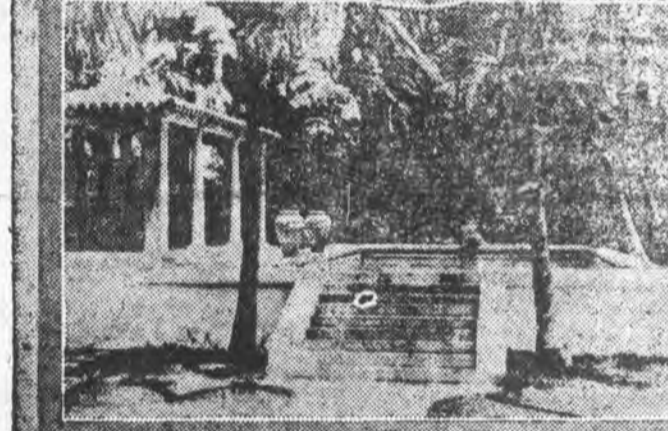

Rickard, whose colorful career reads like a fiction tale, was the only prize-fight promoter who held the high respect of Wall Street in the part it played in his big sporting attractions. He was termed the gloriifier of the boxing game.

By no process of reasoning can America's fire waste be justified. It is the common hazards that keep the fire department busy. They can be reduced.

J. C. PENNEY'S FLORIDA HOME OFFERED TO HERBERT HOOVER AS TEMPORARY RESIDENCE

Beautiful Italian Renaissance home of J. C. Penney, the chain-store magnate, at Belle Isle, Miami, Florida, which will be the home of President-elect Herbert Hoover from early in January until just before his inauguration. The lower illustrations feature the music room and the private swimming pool.

LINDBERGH AND BYRD PRAISE CREW OF QUESTION MARK

Los Angeles, Jan. 10.—Telegrams and cablegrams congratulating them upon their endurance achievement were read by members of the Question Mark crew last night as they rested from their seven-day flight. The record-making airplane will be ready for use again today, but the crew probably will not journey to Rockwell Field, San Diego, until Friday, there to prepare for a triumphant flight to the national capital. But minor repairs were needed to put the ship's engines in good running order, it was found.

Among the senders of congratulatory messages were President Coolidge, Commander Richard E. Byrd, now camped on the Ross Sea ice barrier in his south pole expedition, and from Colonel Charles A. Lindbergh. The Question Mark "reinsures confidence in my own ship so powered," said Byrd. "The accomplishment of the flight has increased confidence in aviation and again has shown the effectiveness of governmental pioneering in aeronautics," said the president.

HOOVER LETS COOLIDGE HANDLE PRESENT CONGRESS

Washington, Jan. 9.—President-elect Hoover talked over many problems with Secretary Mellon and a number of congressional leaders and approved plans for a simple inauguration to be followed by a military and civic parade lasting about two hours.

Members of the Senate and House who discussed legislative affairs with Mr. Hoover, were informed that he would have no suggestions to make on pending measures, as he would consider such a course improper. Members of the Iowa congressional delegation quoted him as having said that President Coolidge still was chief executive and that his administration would have to solve its own problems.

Tucson's Oldest War Veteran Dies

Tucson, Jan. 10.—Funeral services will be held today for Charles Doroph, World War veteran, who died here yesterday.

Doroph was the oldest veteran in the U. S. Veteran's hospital here in point of residence. He was a member of the executive committee of the local American Legion post and a past commander of the Cactus Chapter No. 2, Disabled War Veterans. He was also a member of the Knights of Columbus and the Prescott Elks' lodge.

LOCAL COUPLES MARRIED

Mickey Costello, 22, of Patagonia and Stella Frederico, 20, of Tombstone were married January 7 by Justice Charles E. Hardy of Nogales, and Jim Martinez and Angelina Verdugo of Harshaw were united in marriage in Patagonia by Justice A. H. Gildewell.

Cattlemen to Meet Feb. 12 in Prescott

Phoenix, Jan. 10.—Harry J. Saxon, president of the Arizona Cattle Growers' Association, has issued the annual convention call of the association. The meeting is to be held in Prescott on February 12.

DR. GUSTETTER NAMED HEALTH OFFICER BY SUPERVISORS

Nogales, Jan. 7.—Dr. A. L. Gustetter was named county health officer at the meeting today of the board of supervisors, succeeding Dr. A. V. Smetker. Ike Fraizer was reappointed county engineer.

Fred Hannan, re-elected member, was elected chairman of the board. The new members are Malcolm Middleton of Nogales and A. S. Henderson of Patagonia.

No important business was transacted. The trial and grand jury list was drawn for the ensuing year.

BENNETT, RODGERS HONORED

New York, Jan. 10.—A radio message from the Byrd South Pole expedition copyrighted by the New York Times and St. Louis Post-Dispatch, announces that Commander Byrd has named the harbor he recently discovered the Bay of Wales in honor of Floyd Bennett, and the cape at the entrance to the harbor in honor of Commander John Rodgers, deceased aviators who made aviation history.

The oil industry has done more to simplify its supplies than has any other industry, says the Division of Simplified Practice, Department of Commerce, in a recent report.

PAT HANNAN, NOGALES PIONEER, DIES AT AGE OF 73 YEARS

Nogales, Jan. 7.—Patrick Hannan, 73, pioneer resident of this city, died at 5 o'clock Saturday morning at the family residence, following an illness of six months. Funeral services were held this morning in the Sacred Heart church and burial was in Nogales cemetery. Deceased is survived by his widow, one daughter, Elizabeth, and a son, James.

He left Canada, where he was born, at an early age to seek his fortune in the mines of the west. He visited Butte, Mont.; Cripple Creek, Colo., and later went to Alaska. He retired from active business 16 years ago.

Mr. Hannan was in the United States army under General Custer, and was mustered out about six months before the never-to-be-forgotten massacre of that famous general and his command by Indians.

Court Rules on Deer Killing Case

B'abee, Jan. 10.—Z. F. Gibbons was fined \$50 yesterday on a charge of illegal possession and transportation of deer meat when he was tried in a test case before a local court. Gibbons had been discovered in possession of a deer which he shot in Mexico and brought across the line. The fine was later remitted.

Gov. Phillips Names School Board

Phoenix, Jan. 10.—Prof. E. W. Montgomery, superintendent of Phoenix Union High school; Prof. C. E. Rose, superintendent of city schools at Tucson, and Mrs. Amelia Garcia Hunt, county school superintendent of Apache county, were named today by Gov. John C. Phillips as members of the state board of education.

Lin B. Orme On Parole Board

Phoenix, Jan. 10.—Lin B. Orme, Maricopa county rancher, was appointed yesterday as the citizen third member of the state board of pardons and paroles, it was announced by K. Berry Peterson, attorney general and secretary of the board.

Dr. Wuerschmidt on School Board

Nogales, Jan. 10.—Dr. W. A. Wuerschmidt, optometrist, was named as school trustee by Mrs. Lula R. Larimore, county school superintendent, succeeding Victor J. Wager, who recently resigned because he had moved outside of the city limits.

Phoenix, Jan. 10.—Loren Vaughn

was chosen as chairman of the state corporation commission at a meeting of that body held yesterday morning. He succeeds W. D. Claypool.

U. S. CONNECTED WITH FIVE FOREIGN COUNTRIES BY AIR

Miami, Fla., Jan. 10.—Air lines connecting five countries with the United States were inaugurated yesterday when four big cabin planes soared away from the airport here on their maiden voyages over the new routes. Aboard the fourth plane to depart Postmaster General Harry S. New, as a passenger to Havana. This plane was on its initial trip over a 1440 land and water route to its southernmost terminus to San Juan, Porto Rico.

Inauguration of the service was attended by ceremonies at the landing field of the Pan-American Airways, Inc., in which Postmaster General New, W. Irving Glover, second assistant postmaster general; William McCracken Jr., assistant secretary of commerce, and Miss Amelia Bernal participated. Departure of the planes concluded a three-day flying carnival at Miami airports.

During the inaugural ceremonies, local bands played the American, Cuban, Porto Rican, Dominican, Italian and British anthems, while the flags of the various nations represented in the international chain of air lines, with Miami as their junction, were raised.

The postmaster general loaded mail aboard the four planes. The first aircraft took off for Havana at 8:07 a.m., bearing 506 pounds of mail. Among the seven passengers were Miss Earhart, Mr. McCracken, James Warner Bellah, magazine writer, and Mrs. Bellah.

Another plane to Havana departed a few minutes later and was followed by the Nassau, Bahamas, air liner.

The Porto Rican plane, the Christopher Columbus, sailed into the air at 9:23 o'clock as Mr. New waved a flag from the door of the cabin, with eight passengers and 215 pounds of mail.

The passengers disembarked at Havana, and with Miss Earhart and Mr. McCracken returned to Miami.

The new route lies over Havana, Camaguey and Santiago, Cuba; Port au Prince, Haiti; Santa Domingo City, Dominican Republic, and San Juan, Porto Rico. Daily service is to be maintained to Havana from Miami, while trips will be made three times weekly to the other points, including Nassau. Later the new route is to be extended to include Panama, via Havana and Central America.

QUESTION MARK TO STOP IN TUCSON ON WAY EAST

Los Angeles, Jan. 10.—The crew of the army refueling endurance plane, Question Mark, which outlasted the motors of the great ship in its 15-hour 40 minute record establishing flight here are prepared to fly the craft to its home port in Washington, D. C.

Major Carl Spatz, commander of the flight, announced that repairs on the plane would be completed today, and that the Question Mark would again hop off at 11 o'clock Friday for Rockwell Field, San Diego. There new motors will be substituted for the three which drove the huge plane to a world's record, and the flight resumed.

The Question Mark will be accompanied by refueling plane No. 1 from San Diego to Washington. They will stop at Tucson, Ariz.; Midland, Texas; Shreveport, La., and Maxwell Field, Montgomery, Ala., en route. No refuelings are planned on the trip unless it is found necessary to expedite the return.

Where, at the beginning of the century, most electrical power was generated by the manufacturers desiring its use in their own plants, today almost half of the electric power is purchased from central generating plants.—New York Times.

DAD AND I In the Animal Kingdom

By Stafford

See the pelican feeding her young. She presses her pouch against her breast to squeeze the fish out.

Dem ropes are ferber gettin' in de way ob m' feet.

Pelicans fish in many ways. Here they have formed part of a circle near the shore. By degrees they drive the fish into a small space after which they fill their pouches.

Goodness! where's that?

Why didn't you bring some of the fish Sam?

Wouldn't it be awful to find a devil fish in here?

A devil fish!!!

FIFTY YEARS OF CRIME

Some time ago Clarence Darrow, on being asked about our crime problems, said that "during my half century of practice, society has made no material advance in treatment of crime and the criminal."

His opinion is in striking contrast with the activities of reformers who spend much of their time devising "cures" for the disease of crime.

In that half century of which Mr. Darrow speaks, thousands of criminal laws have gone on the statute books. Patatoes have been offered, and many of them accepted. And yet crime continues an effluvia. Every new law passed means more law-breaking.

The number of people, for example, who have been made law-breakers by such ordinances as those designed to prevent ownership of revolvers and pistols, cannot be estimated. Yet such laws are proposed to "prevent" crime. But who ever heard of a criminal paying any attention to an anti-gun law? An anti-automobile law would be as sensible, on the theory that if automobiles were taken away from all law-abiding citizens, the criminal would thereby be deprived of their use in his depredations.

More multiplicity of laws does not deter the criminal. He will have his gun and his automobile though the statute books sag with enactments forbidding him those commodities. "Freak" laws make all laws less respected.

We need fewer laws, but with sharper teeth to punish criminals, if we wish to check crime; not more laws to destroy rights and privileges of law-abiding citizens.

A contemporary advises that the term "sex appeal" is out of date, the new name for whatever it means being "biological urge."

BOOM LOOKED FOR IN MINING

"A mining engineer who knows the needs of mining is to be the next president," says the Denver Mining Record. "The importance of the tariff has been stressed."

The expanding manufacturing business is fabricating greater tonnage of the metals. Lessened production during the last few years has increased the ratio between supply and demand. All these factors are favorable to increased mining activity.

The mining industry is now in a position where it can advantageously extend its activities. Business and scientific progress in the production, refining and marketing of metals has given the industry a new standard of economic soundness. Already effects of this have been felt by greater prosperity in the metal producing states.

SAFETY AND GOOD ROADS

There is a strong connection between good roads and safety, according to Charles M. Hayes, president of the Chicago Motor Club.

Poor roads increase all the dangers of motoring, from broken springs to blowouts. Good roads impose a minimum of strain on the car, and when a new road is built, engineers with a scientific understanding of safety see to it that it is properly marked, that curves are made gradual, hills avoided and few railroad tracks are crossed.

When almost every family owns a car and uses it consistently both for business and pleasure, good roads are a social, economic and safety necessity. In addition to good roads, we must have wider roads. These are being secured at a minimum of expense by building two- and three-foot pavements and putting a top dressing shoulders on each side of narrow over the old road surface between the shoulders.

UNCLE SAM, PRINTER

The Red Wing (Minn.) Republican recently said editorially:

"Uncle Sam's postoffice department, which it is estimated will have a deficit of \$100,000,000 during the present fiscal year, will continue in the business of competing with local printers in the furnishing of printed envelopes, having recently awarded a contract involving more than \$15,000,000 in this connection.

"This means that one concern will have a monopoly of the amount of

gross business, a large portion of which will be diverted from country publishers, who are practically the only class of business men with whom the government competes in this manner.

"The injustice of this practice is all the more marked because the printing is done for an additional charge of only a few cents a thousand over the cost of the plain envelopes—a charge so small that it covers only a fraction of the cost. The envelopes alone are priced higher than necessary in order to cover a portion of the loss on the printing, but the customer thinks he is getting a bargain because of this juggling of price quotations.

"Having been victims of this unfair competition for half a century, it is little wonder that country editors are practically a unit in opposition to government operation of business enterprises. All fair-minded business men should assist the National Editorial Association in its efforts to eliminate this Socialistic and un-American practice.

"There would be as much justification for the operation of retail stores by the government as there is for the retail sale of printed envelopes in competition with local printers."

NEWSPAPERS CITY'S BEST ASSET

In a recent issue of the Tucson Citizen, the general manager, Hil F. Best, says:

"The average growing and progressive city would not at any cost be without a good newspaper.

"The newspaper in every city is one of the greatest instruments for suppression on crime.

"The newspaper in every city is founded on the basic principle of encouragement of community development.

"The newspaper in every city is vital to the merchant and his business success to the extent of advising the readers of his adaptability to ever-changing conditions.

"The newspaper is the biggest single industry for general good in nearly every city, and the average newspaper worker, though oftentimes underpaid, is the hardest working individual in every city. He is at the call of the merchant and at the source of news 24 hours in the day; he never stops—like the actor, the newspaper man has his aim—the newspaper MUST be printed."

More than a million plants, representing about 1000 species, will grace the flower garden of a hotel in Yosemite National Park.

WALTER P. CHRYSLER'S TRAFFIC TALKS

FUTURES IN AUTOMOBILE SPEEDS

Not until traffic problems have been properly met and solved will the automobile come fully into its own as a means of rapid transportation. At the present time cars capable of speeds of from sixty to eighty miles an hour can rarely operate anywhere near a rate of 100 per cent efficiency. Owing to traffic congestion, road facilities in their present state and the natural demands for the safety of the individual which come as a result of the former conditions, many motor vehicles might as well be geared to do merely twenty-five miles an hour.

Only when conditions have been made more favorable for the motor vehicle will it give back in return the speed of which it is capable, mechanically. But when those conditions have been met it will be possible to travel with ease and perfect safety to everyone at a rate of sixty miles an hour and over from city to city.

The same conditions arose when the railroad first made its appearance. In the first years of their history not only were the physical conditions unfavorable to operation at

high speed with perfect safety but, as with the automobile, there were legal restrictions against speed. As the conditions changed, however, the limitations and restrictions were removed until today it is possible for a maximum speed to be realized with the steam engine. Indeed, everything that can be done is done to increase this speed limit.

A similar process of development seems to be promised by the motor car. A few of the means by which these conditions will be realized are easily predicted as one looks in mind the general essentials of railroad operation. Main arteries will be as well known as railroad tracks and, as well protected by barriers, fences, etc., in crowded areas. They will be from four to six cars wide, with well-defined lanes of travel for cars of different speeds. Possibly there will be terminals in all big cities for through or inter-state traffic with garage and hotel facilities.

The proper administration of the motor car problem requires all of the vision, imagination and practical planning that every community can summon.

Queen Victoria was the first British sovereign to occupy Buckingham palace as a residence.

Cured of paralysis in a Chicago hospital, James Remson sent the institution \$70,000.

NOTICE FOR PUBLICATION (061280)

Department of the Interior, U. S. Land Office at Phoenix, Arizona, January 3 1929.

NOTICE is hereby given that Edwin Dean Raines, of Patagonia, Arizona, who, on January 28, 1928, made Additional Stockraising Homestead Entry, No. 061280, for Lots 3, 4, 5, 6, 7, E½ SW¼, SE¼, Section 17; Lot 5, NE¼ NW¼, NW¼ NE¼, Section 20, Township 22 S., Range 15 E., G. & S. R. B. & Meridian, has filed notice of intention to make Final Three-Year Proof, to establish claim to the land above described, before W. A. O'Connor, United States Commissioner, at Nogales, Arizona, on the 23rd day of February, 1929.

Claimant names as witnesses: Glen Perry, Joseph Kane, Miles Perry, Fred Barnett, all of Patagonia, Arizona.

A Forgotten Hero of the Revolution

By ELMO SCOTT WATSON

FOR more than a century of neglect of his unmarked grave, tardy honors have at last been paid to a forgotten hero of the American Revolution, whose services were of inestimable value to the cause of liberty, a man who was one of George Washington's closest personal friends and to whose lot it fell to close the dying eyes of the Father of His Country.

This man was Dr. James Craik, chief physician and surgeon of the Continental army. After Doctor Craik's death in 1814, he was buried in the churchyard of the old Presbyterian meeting house in Alexandria, Va. With the passage of years the old burying ground was neglected; weeds covered it and finally all trace of Doctor Craik's grave was lost. Several years ago a movement was started to locate the grave of this patriot and erect a suitable marker. This was done and a small brass tablet was provided by the Alexandria Chamber of Commerce. Through an error, however, this tablet was placed in the wrong spot.

But last year the project was taken up by the Presbyterian Meeting House Restoration committee of Alexandria, and as a result an imposing granite monument, paid for by his descendants, was recently unveiled over Doctor Craik's grave.

Doctor Craik had had a distinguished career even before he became chief medical officer for the patriot army in the Revolution. What that career was is shown by the following sketch of his life, provided by the restoration committee:

Upon the organization of the Virginia Provisional regiment in 1754, Craik was appointed surgeon. The command was at the same time tendered to Maj. George Washington who modestly declined but accepted the lieutenant colonelcy, the command going to Col. Joshua Fry. The regiment was not brought together until, upon the death of Fry at Wills Creek, Washington succeeded to the leadership and the headquarters joined him at Fort Necessity. Here was begun that lifelong intimacy between Washington and Craik, so much treasured by both.

Craik, as medical officer of his regiment, was present at the battle of Great Meadows in 1754 and rendered surgical aid to the wounded in that action. His service extended also over the period of the ill-fated expedition of Braddock toward Fort Duquesne, and he participated in the battle of the Monongahela, where he dressed the wounds of the commander of the British forces and many others of the injured upon that bloody field. Here he witnessed the singular impunity which attended his youthful chief as he performed his duties first as aide and later as commander of the disheartened remnants of the British troops.

When, then, on August 14, 1755, some six weeks after the operations on the Monongahela, Washington was appointed to the command of the Virginia provincial army and assigned to the duty of protecting the Virginia and Maryland frontier from the French and Indians, Doctor Craik still remained as his chief medical officer. The operations thus begun continued

for more than three years, during which all the hardships and privations of the hardy frontier troops were shared by the young surgeon, whose service ceased only upon the disbandment of the little army after the capture of Fort Pitt on November 25, 1758.

Upon his retirement from the Virginia provincial service, Craik purchased an extensive plantation at Port Tobacco, in Charles county, Maryland, and erected upon it a spacious mansion which was described by his grandson, Daniel Jenifer, in 1849 as even then one of the "largest, most comfortable and agreeable residences in the country." Here on the 13th of November, 1760, he brought his young bride, nee Marianne Ewell of Belle Air, in Prince William county, Va., and here he passed in active medical practice the years which elapsed until he again followed his friend at his country's call. During this time the Craiks and the Washingtons never relinquished their intimacy, and the interchange of visits between Port Tobacco and Mount Vernon were the source of the sincerest pleasure to both.

When the occurrences arose which culminated in the War for Independence, Doctor Craik was an active patriot. As early as 1774, he was conspicuous in a meeting of the citizens of his county at Port Tobacco, at which were adopted a series of resolutions in which the people pledged themselves that if the act of parliament to blockade the port of Boston was not promptly repealed the inhabitants of the county would join with the several counties of Maryland and the principal colonies of America to break off all commercial communication with Great Britain and the West Indies. Craik was a member of the committee of correspondence selected to carry out these resolutions.

So valuable to the cause was the presence of Craik in Maryland and so deeply were planted the roots of his social and professional relations that Washington hesitated a considerable time after assuming command of the American forces to ask his old friend to again place his medico-military experience at the disposal of his country. But in April, 1777, in a most cordial letter he tendered to him his choice between the positions of "senior physician and surgeon of the hospital with pay of \$4 and six rations per day and forage for one horse" and "assistant director general, with pay of \$3 and six rations per day and two horses and traveling expenses found" in the middle department.

The latter position the doctor accepted and soon entered upon his duties. On the arrival of Count Rochambeau and his forces Craik was ordered to join them at Newport, R. I., and to organize their hospital department, a task which he accomplished with the most complete success.

On the reorganization of the medical department, October 6, 1780, Doctor Craik was appointed the senior of the four "chief hospital physicians and surgeons," being the third officer in rank in the Medical corps, and upon the resignation of Director General Shippen and the promotion of Dr. John Cochran, "chief physician and surgeon of the army," he was advanced to the second place under the latter title. This position he held un-

til mustered out at the end of the war, in 1783, after personally participating in many of its most important events, including the capitulation at Yorktown.

At the close of the war, he returned to his home at Port Tobacco, but shortly after, at the earnest solicitation of his late chief, he removed to Alexandria, near Mount Vernon, where he continued in agreeable association with the Washingtons until his death. In 1788, when war with France seemed inevitable and Washington was again summoned to lead the army, he made the appointment of Craik at the head of the medical department one of the conditions of his own acceptance of the command, remarking, "I have already been applied to by a gentleman, to recommend him for director of the hospital, which I have refused, as well on general grounds as because I should prefer my old friend, Doctor Craik, who, from forty years' experience, is better qualified than a dozen of them together."

Craik was accordingly commissioned physician general of the army, July 19, 1788, with the pay and emoluments of lieutenant colonel, but without rank. With the proverbial negligence of military legislation, the act organizing the provincial army provided only for regimental surgeons and surgeon's mates. Fortunately, however, James McHenry, the secretary of war, had himself served as a medical officer during the Revolution and in him Craik found a strong support in developing a properly organized "medical establishment," an act for the materialization of which was passed by congress, March 2, 1790.

The determined attitude of the United States, her prompt resort to arms and the reappearance of her illustrious soldier at the head of the army, however, was sufficient to repress the warlike ardor of France, and, peace speedily prevailing between the two nations, the army was disbanded. Physician General Craik's services officially terminating on June 15, 1800.

Long before the latter date, however, he had returned to his beautiful Virginia home, where in December, 1799, it fell to his lot to close with his own hand the dying eyes of his faithful and famous friend, General Washington.

Of that solemn hour, Craik himself wrote: "I, who was bred amid scenes of human calamity, who had so often witnessed death in its direst and most awful forms, believed that its terrors were too familiar to my eye to shake my fortitude; but when I saw this great man die it seemed as if the bonds of my nature were rent asunder, and that the pillar of my country's happiness had fallen to the ground."

Washington's own testimony to the relations between them was witnessed by the clause of his will which specified that: "To my compatriot in arms, and old and intimate friend, Doctor Craik, I give my bureau (or as the cabinet makers call it, tambour secretary) and the circular chair, an appendage of my study."

Doctor Craik survived this event 15 years, the latter portion of the time in honored retirement, being remembered by his grandson at this period as "a stout, hale, cheery old man, perfectly erect, fond of company and of children and amusing himself with light work in the garden." He remained vigorous to the last and passed away February 6, 1814, at the age of sixty-four.

Young Lady's Elbows No Longer A Hat Rack

"I just couldn't resist any longer telling you of your wonderful medicine, Milks Emulsion. I have been constipated as long as I can remember. Had typhoid fever when I was eight years old and since then my bowels haven't moved freely. Doctors have given me bowel medicine and I have taken pills, salts, castor oil, and everything a person could think of. They didn't do me any good whatever.

"Now, whenever I hear anyone say they are constipated, I immediately tell them of Milks Emulsion. I have taken about 12 large bottles, not all of them regular. Now I keep Milks Emulsion in the house and take it regular. I have taken so much medicine that I thought it was all alike.

"I had a sallow complexion, no color, and felt miserable all the time; but now I have the color of health, and health is something I wouldn't exchange with anyone for a fortune. I wouldn't take ten times the price I paid for Milks Emulsion for the results I have obtained.

"I am 19 years old and weigh 105 pounds. Have gained 5 pounds since taking your medicine and am still gaining. My face is round and my arms are getting round. Before, people used to hang their hats on my elbows, thinking they were hatracks. Now I am going to keep on with Milks Emulsion until I weigh 125 pounds.

"I mentioned your Emulsion to two doctors. They both admitted it was good, and no one knows better than I that it is not only good, but wonderful.

"You may publish this letter if you wish and anyone that wants to ask me about your medicine may do so. I promise to answer every letter. In fact, I couldn't do enough for Milks Emulsion to repay them for what their medicine has done for me. I remain, very respectfully yours, ROSEMOND BOWER, Frontenac, Kan.

Sold by all druggists under a guarantee to give satisfaction or money refunded. The Milks Emulsion Co., Terre Haute, Ind.—Adv.

Gas Mask for Housewives

Fumes from onions are kept from the nostrils and eyes by a gas mask which has been especially adapted to domestic instead of war use. It is easily slipped on or off and affords an unobstructed vision through wide lenses. It may also be used by hay-fever victims to avoid dust.—Popular Mechanics Magazine.

Leading Question

"I'm afraid I didn't make myself plain."

"No? Who did?"

Oklahoma Girl Strong as Boy

"Louise Alice was fretful, nervous and all run-down from whooping cough," says Mrs. F. J. Kolar, 1730 West 22nd St., Oklahoma City, Okla. "The little I could force her to eat wouldn't ever digest. She became underweight, sallow and weak.

"Then I decided to try California Fig Syrup, and the results surprised me. Her bowels started working immediately, and in little or no time she was eating so she got to be a pest at the table, always asking us to pass things. Her weight increased, her color improved and she began to romp and play again like other children. Now she's the picture of health, and strong as a boy."

Pleasant-tasting, purely vegetable California Fig Syrup acts surely and quickly to cleanse your child's stomach and bowels of the souring waste that is keeping her half-sick, bilious, sallow, feverish, listless, weak and puny. But it's more than a laxative. It tones and strengthens the stomach and bowels so these organs continue to act normally, of their own accord.

Over four million bottles used a year shows its popularity. Ask for it by the full name, "California Fig Syrup," so you'll get the genuine, endorsed by physicians for 50 years.

Tottie's Busy Life

The oldest known cat in Great Britain is said to belong to a lady living at Oswestry. "Tottie" is twenty-five years and ten months old, and is now engaged in rearing her two hundred and twentieth kitten.

Cold Need Cause No Inconvenience

Singers can't always keep from catching cold, but they can get the best of any cold in a few hours—and so can you. Get Pape's Cold Compound that comes in pleasant-tasting tablets, one of which will break up a cold so quickly you'll be astonished.—Adv.

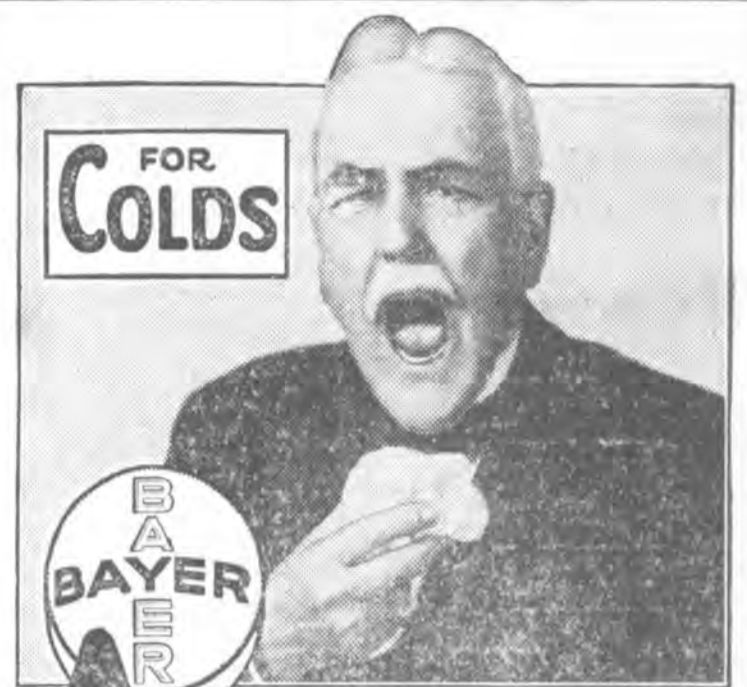

He Knew

"I find the old jokes very popular."

"Yes, they're new to some, to others they're old friends."

The man who is hunting trouble should shoot folly as it flies.

Strategy—the science of inducing others to walk into your trap.

ASPIRIN

To break a cold harmlessly and in a hurry try a Bayer Aspirin tablet. And for headache. The action of Aspirin is very efficient, too, in cases of neuralgia, neuritis, even rheumatism and lumbago! And there's no after effect; doctors give Aspirin to children—often infants. Whenever there's pain, think of Aspirin. The genuine Bayer Aspirin has Bayer on the box and on every tablet. All druggists, with proven directions.

Physicians prescribe Bayer Aspirin; it does NOT affect the heart

Aspirin is the trade mark of Bayer Manufacture of Monaceteichstrasse of Salzigtriedl

Thousands of women have come to regard Cuticura as the true natural aid to a lovely skin and attractive hands and hair. Regular daily use of Cuticura Soap, assisted by Cuticura Ointment when required, purifies and beautifies the skin, cleanses the scalp and keeps the hair live and glossy.

Soap 25c. Ointment 25c. and 50c. Talcum 25c. Sample each free.

Address: "Cuticura," Dept. B6, Malden, Mass.

Cuticura Shaving Stick 25c.

The partridge, a bird that lives in lonely, high places, wears white plumage in winter and gray-brown in summer.

The boundary between the United States and Canada is to be marked on all the international bridges between the countries.

THE NEW SUPERIOR Whippet

FOURS · SIXES

The Style Creation of master Designers

INTRODUCING THE NEW "FINGER-TIP CONTROL"

THE MOST NOTABLE ADVANCE IN DRIVING CONVENIENCE SINCE THE SELF-STARTER

Coach \$695; Coupe \$695; Coupe (with rumble seat) \$725; Sport Deluxe Roadster \$850 (including rumble seat and extras).

WHIPPET SIX SEDAN \$760

WHIPPET FOUR COUPE \$535

Coupe \$535; Sedan \$595; Roadster \$485; Touring \$475; Commercial Chassis \$365. All Willys-Overland prices. F. O. B. Toledo, Ohio, and specifications subject to change without notice.

Greater Beauty--Longer Wheelbase--Larger Bodies

BEAUTY that commands your admiration is expressed in the new Superior Whippet's longer bodies, graceful lines, higher radiator and hood, more distinctive colors, sweeping one-piece full crown fenders—establishing the newest style motif for Fours and Sixes.

The larger bodies of the new Superior Whippet afford more spacious interiors, with extra leg room and elbow room. The seats are wider and heavily upholstered, and have form-fitting contours.

Both the front and rear springs of the new Superior Whippet have been considerably lengthened. The increased wheelbase, stubbers and oversized balloon tires further enhance the car's superb riding qualities.

Mechanically, the new Superior Whippet furthers a long lead over competition. A new higher compression engine gives more than 20% added horsepower, with greatly increased speed! Higher second gear speed gives faster pick-up.

And this new car is well qualified to carry on Whippet's unsurpassed reputation for dependable performance and minimum operating costs.

Another "Tong" War

A policeman was walking his beat in a residential district when a badly battered house-to-house salesman rushed up to him.

"Say, officer," he panted, pointing to a red-headed iceman, who had just climbed on his wagon, "I want that man arrested. Just look what he did to me!"

Stalking majestically into the street, the policeman waved the ice-wagon to

halt, and demanded of its driver, "Did you hit this man?"

"Oh, did," was the shameless reply.

"What for?"

"Alienation of affections," replied the iceman. "He sold Bridget Nolan's missus wan av thim electric ice-boxes."

Crocodile's Dinner-Call

In Njango, a village on the shores of Lake Victoria, Uganda, an African by the use of a peculiar call can summons an 11-foot crocodile from

depths of the lake and make it eat fish from his hand! On Saturdays and Sundays, when hundreds of natives arrive at the little village from the surrounding territory, the African exercises his peculiar power, making the crocodile eat scores of fish supplied by the admiring crowd.

This sale of fish is making the native a rich man, and so strange is the sight that motor buses are now making special runs to Njango.

Trust not him that seems a saint.

WHO ARE THE PEOPLE THIS NEW CAR WILL ATTRACT?

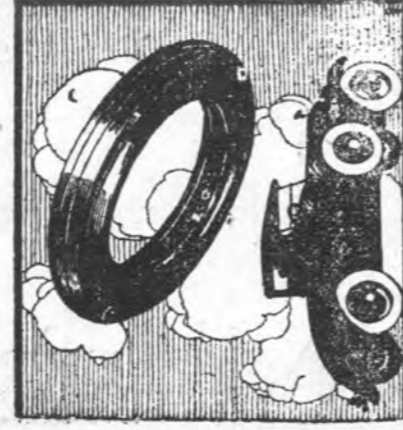

A NEW CAR is coming. It is a six. It has bodies by Fisher. It is bringing new luxury, new beauty and new performance capabilities to its price field. Who are the people this great new car will attract?

Most typical Americans of today are progressive. They are demanding more beauty, more luxury and finer performance than ever in their automobiles.

The Oakland Motor Car Company has been building the Pontiac Six for this progressive group during the past three years. And now Oakland has created a new car especially for them—not merely a refinement of an earlier model, but a brand new car from beginning to end. It brings new standards of style and luxury to its price field. It offers them performance they can tell their friends about. It will enable them to make a long step up the ladder of motor car quality with only a slight increase in investment. Watch for the

SCHEDULE FOR 1929 FIXED BY TAX COMMISSIONERS

Phoenix, Jan. 9.—The State Tax Commission today held a meeting, following which the 1929 schedule of values to be used by county tax assessors in making up tax rolls was announced. The schedule is practically the same as that for 1928.

In the schedule announced non-productive patented mines and lode claims are to be valued at \$36.50 per acre, while a productive claim must be valued at \$750 per acre.

Non-productive patented placer claims, including coal lands, will be assessed at \$10 per acre, and patented mill sites will pay on a valuation of \$36.50 per acre.

PHILLIPS APPOINTS COMMISSION

Phoenix, Jan. 9.—Clifton Matthews, prominent attorney of Globe; Dwight B. Heard, publisher of The Arizona Republican, and Thomas Maddock of Phoenix, former state engineer, were named today by Governor John C. Billips as members of the Colorado River Commission to serve until March 4, 1929.

Matthews and Heard replace H. S. McCluskey and Thomas Kimball of Graham county as members of the commission, both of whom were appointed to the commission by former Governor Hunt, and who tendered their resignations when Hunt retired from office.

Maddock, the only Republican member of the commission, also submitted his resignation to Governor Phillips, but it was not accepted, Maddock being reappointed.

MEXICO MAY RETURN TO OLD METHOD OF DENOUNCEMENT

Mexico City, Jan. 10.—Mexico may return to the old system of allowing

denouncements of mining claims, it is said, as the senate, now in session, is considering the matter seriously in order that foreign capital may be induced to develop the country's min-

era wealth.

Prospects of an early change in the law have led to unusual activity in many sections of the country. This renewed activity is particularly noticeable in the northern part of Mexico. In one Sonora section many denouncements have been made, while but one or two applications for permits were received last year.

A change back to the law in force

ELGIN RANCHERS TO MEET SUNDAY TO DISCUSS OIL LEASES

Elgin land owners will hold a meeting Sunday afternoon at 2 o'clock to discuss the advisability of leasing their land for oil drilling.

A Nogales resident has been in the Elgin district for quite a while securing leases. He has about 2500 acres tied up. When 10,000 acres are leased, it is said, a company operating in Oklahoma and California will begin drilling. The work will be financed entirely by the lessees.

Geologists have examined the San Rafael valley on several different occasions, and all have expressed the belief that oil would be found there. On three occasions in the past most of the San Rafael valley land was leased for oil prospecting, but nothing was done in the way of drilling.

Several years ago a Nogales company drilled to a depth of 1100 feet in the Elgin field, but as sufficient capital was not available to continue the work operations were suspended and no definite conclusion was arrived at. It is hoped the new company will make a determined effort to prove up the oil possibilities of the country.

before the world war, would be welcome by operators, as it was considered very liberal and satisfactory.

Under the old law annual assessment work was required. Mine operators were given title to the claims by payment of taxes to the Mexican government.

Street Cars Supplemented by Buses
Phoenix, Jan. 10.—A passenger motor-bus system to be operated as supplementary feeders to the municipal street railway lines will be installed by the city of Phoenix, it was decided at the regular weekly meeting of the city commission.

Tombstone—New engine and generator installed at local light plant.

HARRY CHERNIN HEADS HIRAMS

Nogales, Jan. 10.—Harry Chernin of the Hiram Club was elected president of the Nogales Hiram Club at the regular meeting yesterday. A. G. Stearns was elected vice president, Harry A. Wilson, treasurer, and H. C. Wayte, secretary.

The Cuban regular army has 1614 officers and 122,187 enlisted men.
